#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 78256, is issued subject to the terms and conditions imposed in said Permit 78256 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 78255, 78257, 78258, 78259, 78265, 78266, 78267, 78420, 78421 and 82986 shall not exceed that sufficient to water 750 head of cattle, and not to exceed 16.80 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.025 cubic feet per second or 16.8 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

February 13 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

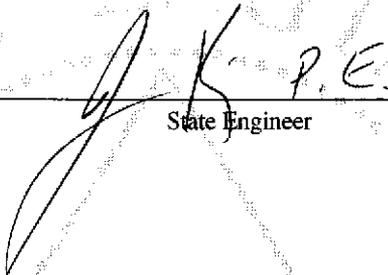

February 13 2017

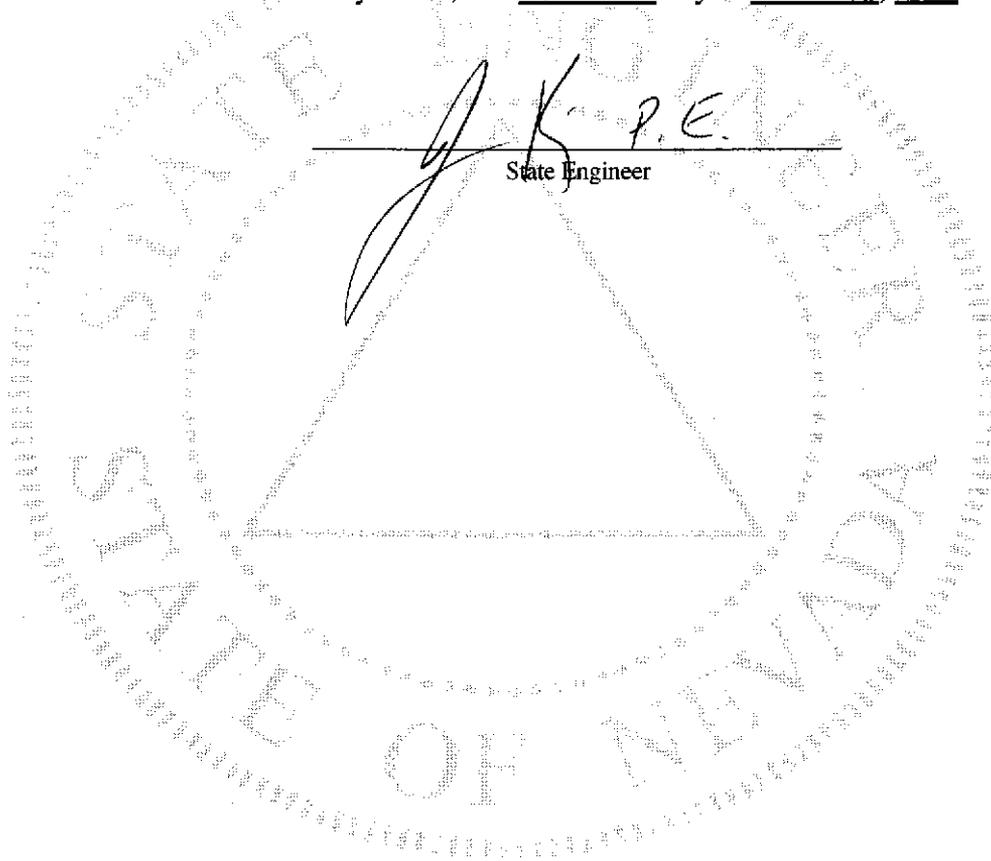

Map in support of proof of beneficial use shall be filed on or before:

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):(Failure to provide a detailed description may cause a delay in processing)

Due to the loss of forage on open range brought about by the severe drought conditions, it is necessary to move Permit No. 78256 to the proposed point of diversion and place of use that is located in an area irrigated by the applicants existing irrigation permits. This application will allow cattle to graze on the stubble of harvested crop areas being irrigated rather than relying on the growth of grasses or pasture on open range lands.
