

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: DAVID C. ARMUTH AND DEBRA L. ARMUTH
Source: UNDERGROUND
Basin: LAMOILLE VALLEY
Manner of Use: IRRIGATION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 07/31/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is entirely supplemental to surface water rights on Lamoille Creek under Permit 3530, Certificate 656, and as such cannot be pumped unless there is no surface water available.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.12 cubic feet per second or 35.58 acre-feet annually, but not to exceed 3.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 31 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

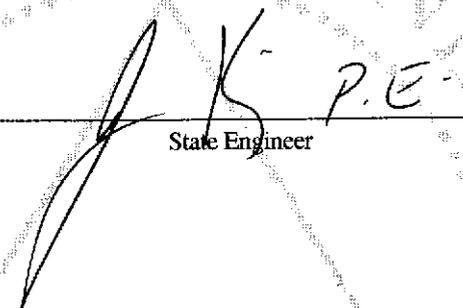

January 31 2017

Map in support of proof of beneficial use shall be filed on or before:

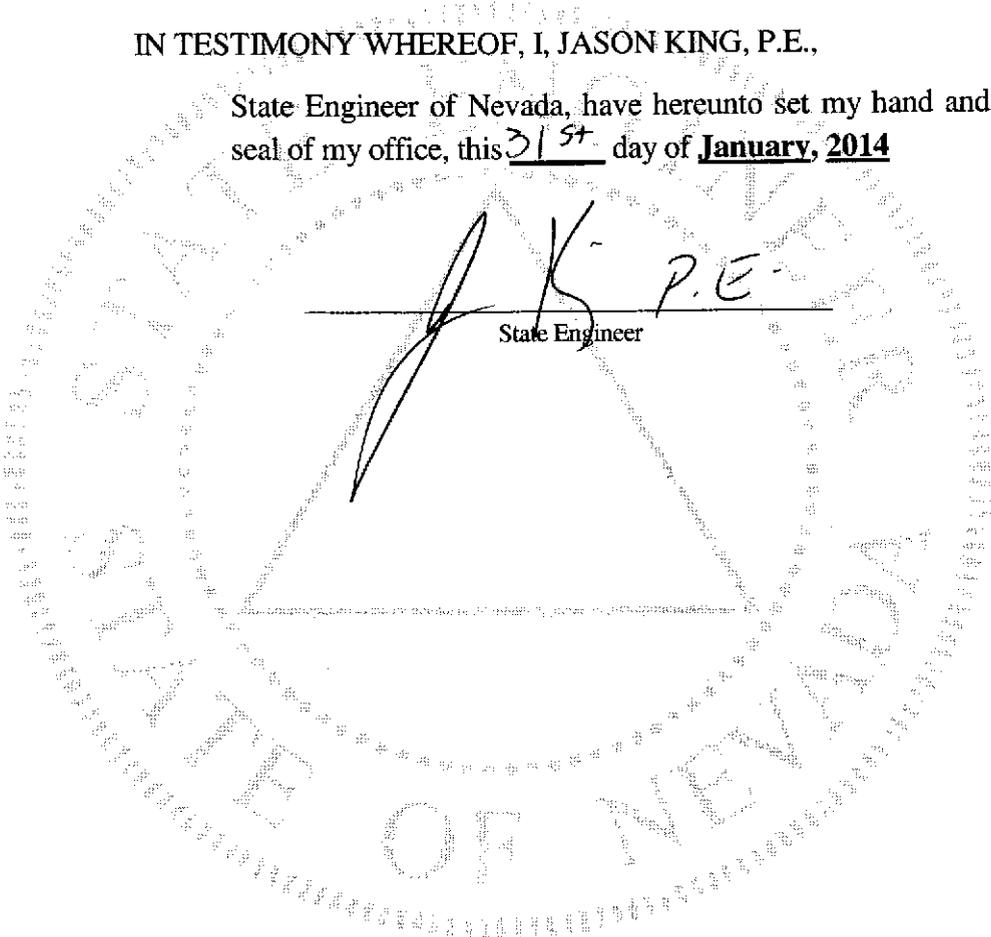

January 31 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 31st day of **January, 2014**

State Engineer

82993

Application No. _____

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>JUL 31 2013</u>
Returned to applicant for correction	<u>SEPT 27 2000 under</u>
Corrected Application filed	Map filed <u>66811</u>

The applicant David C. Armuth & Debra L. Armuth
PO Box 281259 of Lamoille
Street Address or P.O. Box City or Town

State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

- The source of water is Under ground
Name of the stream, lake, underground, spring or other sources.
- The amount of water applied for is 0.12 CFS (54 GPM)
One second foot equals 448.83 gallons per minute.
 - If stored in a reservoir give the number of acre-feet _____
- The water is to be used for Irrigation & Domestic
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
- If use is for:
 - Irrigation, state number of acres to be irrigated 11.86
 - Stockwater, state number and kind of animals _____
 - Other use (describe fully in No. 12) _____
 - Power:
 - Horsepower developed _____
 - Point of return of water to stream _____

Lamoille Valley
9-45
61

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE 1/4 SW 1/4 of Section 24, T.33 N., R.57 E., M.D.B. & M. or at a point from which the SW corner of said Section 24 bears S. 51° 46' 24" W., 1773.13 FT

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Portion of the SW 1/4 of Section 24, T.33 N., R. 57 E., M.D.B & M.

(Lot 7, Ruby Home Ranch Subdivision)

7. Use will begin about Jan 1 and end about Dec 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled Well, Pump & Sprinkler system.

9. Estimated cost of works: \$20,000

10. Estimated time required to construct works: 3 years
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 3 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Install pipe system to irrigate pasture to grow alfalfa and/or hay crops
