

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: CHARLES AND CARLINDA A. KENDRICKS
Source: UNDERGROUND
Basin: BUENA VISTA VALLEY
Manner of Use: STOCKWATERING
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 05/14/2001

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the manner of use of a portion of the waters of an underground source as heretofore granted under Permit 40892, is issued subject to the terms and conditions imposed in said Permit 40892 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 5.27 acre-feet is abrogated from the base right. However, pursuant to NRS 533.3703 only 4.48 acre-feet (the net consumptive use amount) at 0.10 cubic feet per second can be diverted annually, sufficient to water 200 head of cattle. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 11 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

June 11 2016

Map in support of proof of beneficial use shall be filed on or before:

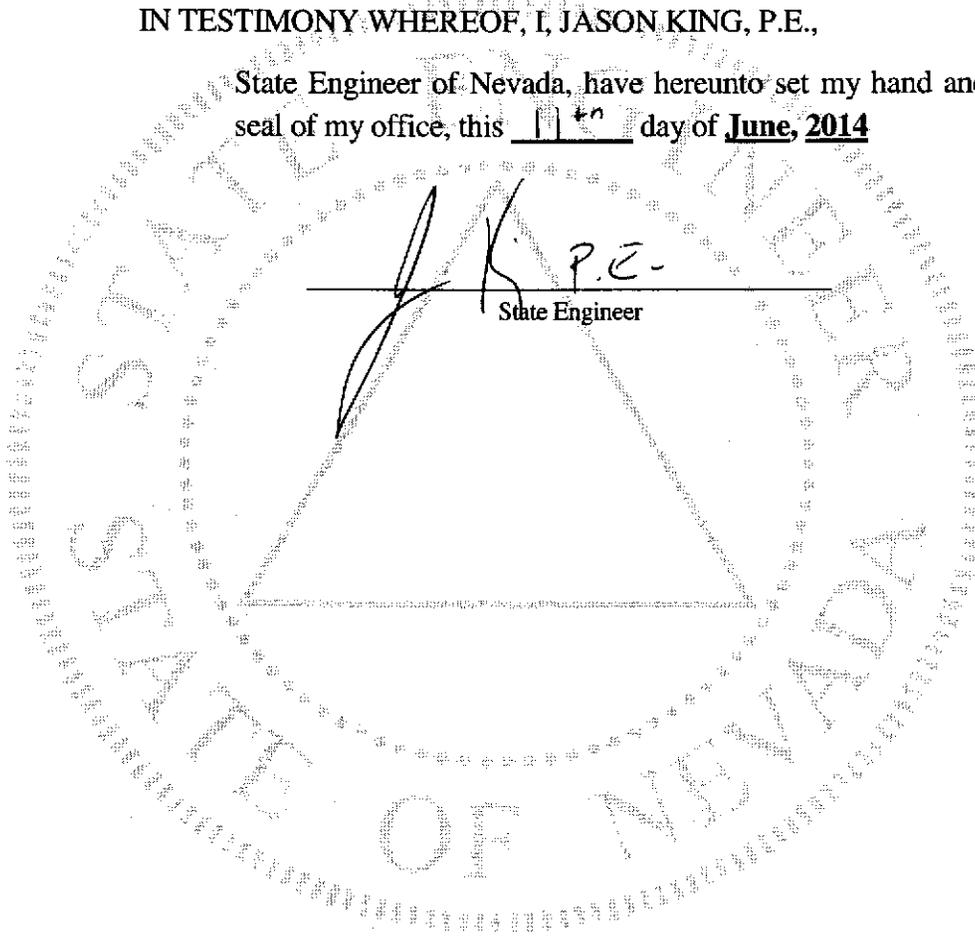

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 11th day of June, 2014

P.E.
State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY
Date of filing in State Engineer's Office AUG 05 2013
Returned to applicant for correction _____
Corrected application filed _____ Map filed Mar 14 1980 under 40892

The applicant Charles & Carlinda A. Kendricks
485 Country Drive of Fernley
Street Address or PO Box City or Town
Nevada 89408 State and ZIP Code

hereby make(s) application for permission to change the

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Portion of Permit 40892

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 0.10 cfs not to exceed 5.27 afa
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Stockwater - 200 cows
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Irrigation & Domestic
If for stock, state number and kind of animals.

WAR
8/7/13

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

NW1/4 NW1/4 Section 27, T.30N., R.35E., MDB&M or at a point from which the NW corner of Section 28, T.30N., R.35E., bears N89°52'W a distance of 5.315 feet. See supporting map under Permit 40892

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
Same as proposed

B V V
10-129
Pe

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Sections 27, 28, W1/2 Section 26 & W1/2 Section 34, all in T.30N., R.35E., M.D.B.&M. See supporting map under Permit 40892

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Same as proposed

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well, turbine pump/motor, distribution system & stock tanks

12. Estimated cost of works \$10,000

13. Estimated time required to construct works Two years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Five years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Base permit 40892 was approved for Irrigation at a duty of 4.0 af/ac & the NIWR for Basin 129 is 3.4 af/ac, therefore it is requested that 5.27 af be abrogated from Permit 40892 to yield a consumptive stock water duty of 4.48 afs or 1.46 MGA for 200 cows @ 20 gpd from January - December.

16. Miscellaneous remarks:

Basin Engineer, Mark Butner has been consulted regarding this and companion change application.
