

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: BEATTY WATER AND SANITATION DISTRICT
Source: UNDERGROUND
Basin: SARCOBATUS FLAT
Manner of Use: MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 10/20/1999

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place and manner of use of the waters of an underground source as heretofore granted under Permit 65620, is issued subject to the terms and conditions imposed in said Permit 65620 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is approved for the entire 500 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 420 acre-feet, can be diverted annually. Additional diversion up to the total 500 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 420 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 500 acre-feet annually is abrogated from the base right. However, pursuant to NRS 533.3703 only 420 acre-feet (the net consumptive use amount) at 2.0 cubic feet per second can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

Filed Under 65620 on May 16, 2013

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

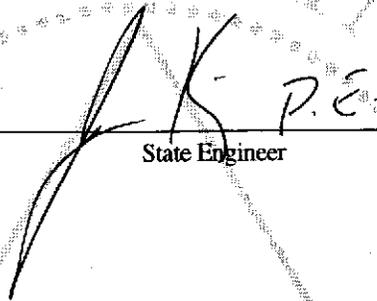

May 30 2024

Map in support of proof of beneficial use shall be filed on or before:

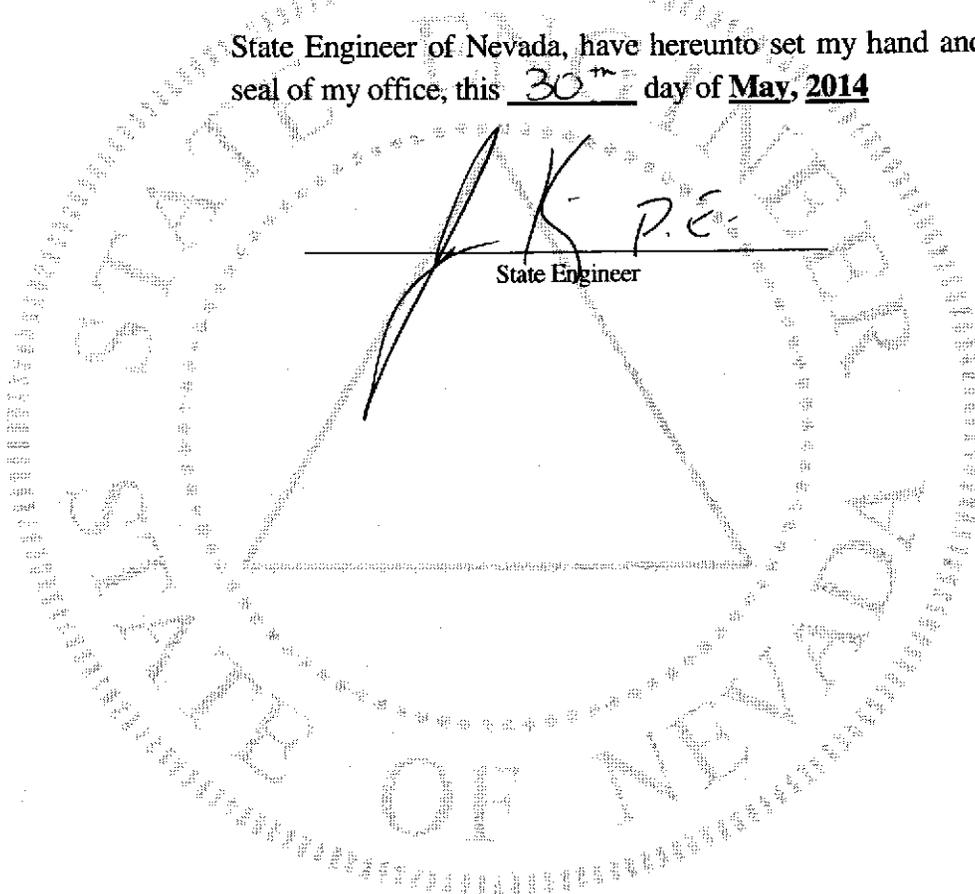

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of May, 2014

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

1. The source of water is an underground source
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 2.0 cubic feet per second and 500.0 acre-feet annually
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Municipal Purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Irrigation and Domestic Purposes
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the NW1/4 of the NW1/4 of Section 11, T.8S., R.44E., M.D.M., or at a point from which the NW corner of said Section 11 bears North 12°16'00" West a distance of 850 feet. Refer to map filed in support of Permit No. 65620.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

*Sarcobatus Flat
10-146
Nye*

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Refer to attached exhibit "A" for proposed place of use and refer to map filed in support of this application. Place of use described is all within the natural drainage basin of Sarcobatus Flat.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

31.5 acres in the NW1/4 of the NW1/4; 40.0 acres in the SW1/4 of the NW1/4; 26.50 acres in the SE1/4 of the NW1/4; and 2.0 acres in the NE1/4 of the NW1/4 all in Section 11, T.8S., R.44E., M.D.M. A total of 100.0 acres to be removed from irrigation. Refer to map filed in support of Permit No. 65620.

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

A motor, pump and totalizing meter are installed at existing point of diversion. Refer to item No. 15 for additional information.

12. Estimated cost of works None - Works Completed

13. Estimated time required to construct works None - Works Completed

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Ten (10) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

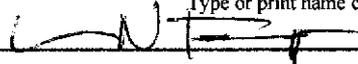

Water under this change application will be provided to serve additional Beatty Water and Sanitation District customers within the proposed place of use. Piping and infrastructure improvements are expected as the District services a larger customer base. Additional applications to change may be filed to reflect this municipal service.

16. Miscellaneous remarks:

This application is being filed with the understanding that a reduction to consumptive use will occur at the time of permitting. It is the intent of the application to change the entire duty under Permit No. 65620 for municipal purposes.
