

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: LAS VEGAS VALLEY WATER DISTRICT
Source: UNDERGROUND
Basin: IVANPAH VALLEY-NORTHERN PART
Manner of Use: CONSTRUCTION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 09/06/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance issued under the provisions of NRS 533.371 for a finite period of time. This permit will expire on December 31, 2016 and all rights herein will revert to the source. Prior to the expiration date, the permittee may request an extension of time to expire which may be granted if the State Engineer finds the permit satisfies the criteria under NRS 533 and 534. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 83076 and 83077 shall not exceed 733 acre feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.012 cubic feet per second or 733 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 31 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

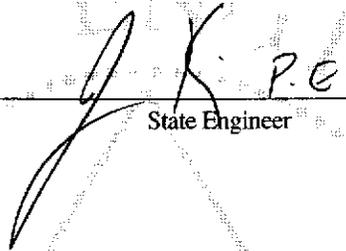

December 31 2016

Map in support of proof of beneficial use shall be filed on or before:

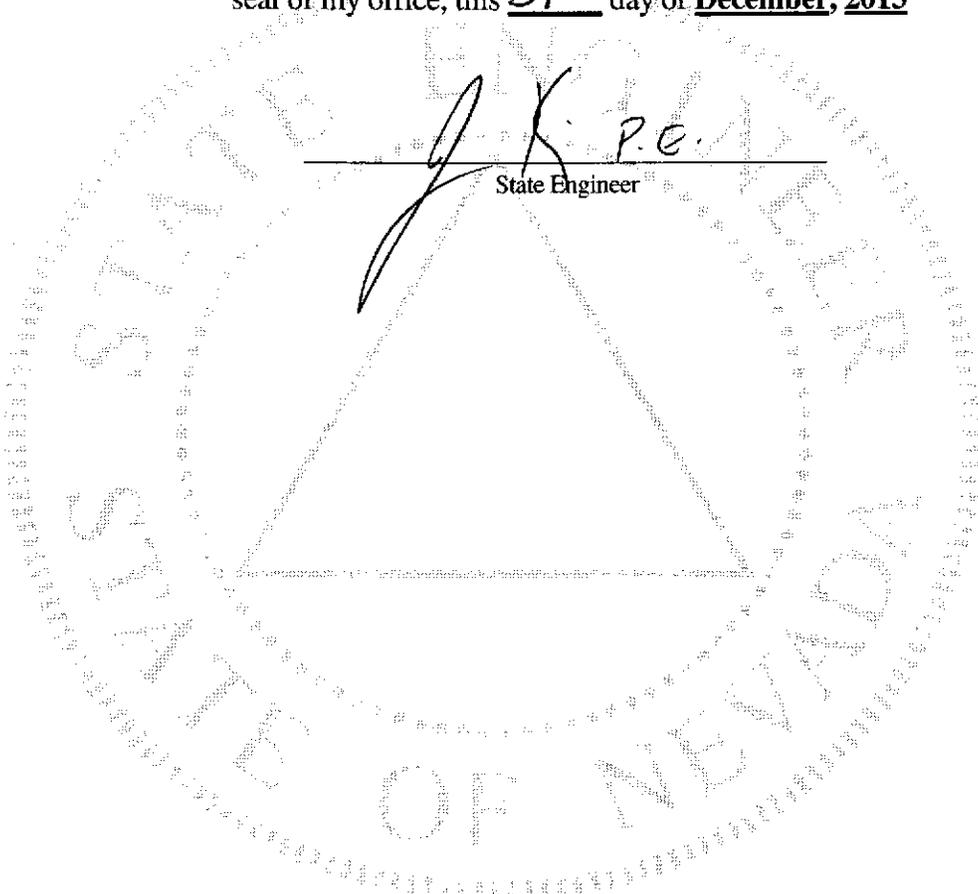

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 31st day of December, 2013

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>SEP 06 2013</u>
Returned to applicant for correction	_____
Corrected Application filed	Map filed <u>SEP 06 2013</u>

The applicant Las Vegas Valley Water District (LVVWD)
1001 S. Valley View Blvd, MS #485 of Las Vegas,
Street Address or P.O. Box City or Town
Nevada, 89153 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

LVVWD is a political subdivision of the State of Nevada and a quasi-municipal corporation. LVVWD was created pursuant to Chapter 167, Statutes of Nevada 1946.

 STATE ENGINEERS OFFICE

1. The source of water is underground (Ivanpah Valley-Northern Part HA 164A).
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 1.012 cfs, diversion rate only.
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for construction of photovoltaic solar power facility.
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

*Ivanpah Valley N.P.
 10-164A
 CI*

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

See attached Exhibit A.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

See attached Exhibit A.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well with pump and motor.

9. Estimated cost of works: \$200,000

10. Estimated time required to construct works: one year.

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: two years.

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water from this permit will be used for the construction of a photovoltaic solar power facility located in the Ivanpah Valley North hydrographic basin near Primm, Nevada. The plant is owned by Silver State Solar Power South.

13. Miscellaneous remarks:
