

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: DAVID M. LITTLE FAMILY TRUST
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: IRRIGATION
Period of Use: APRIL 1ST THROUGH NOVEMBER 30TH
Priority Date: 07/21/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 57867, is issued subject to the terms and conditions imposed in said Permit 57867 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permits 57867 and 83078 shall not exceed 1447.9 acre-feet seasonally for the irrigation of 401 acres within the described place of use.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

The total land irrigated under Permits 57867 and 83078 and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 401.0 acres within the described place of use. These permits for underground water are issued as a supplemental water supply to lands that have surface water rights from the Walker River as set forth in Claim Number 27 of the Walker River Decree C-125, or from storage water provided from the Walker River Irrigation District. The total diversion of water for irrigation from any and all sources shall not exceed the duty of water for this place of use as set forth in the Decree. Underground water shall not be pumped from the wells described in these permits except to the extent necessary to make up the portion of the entitled duty from Decree and storage water in any given year

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1,495 cubic feet per second or 723.95 acre-feet seasonally.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 30 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

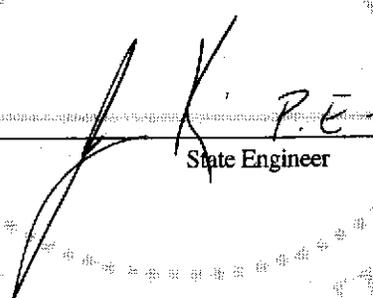

May 30 2017

Map in support of proof of beneficial use shall be filed on or before:

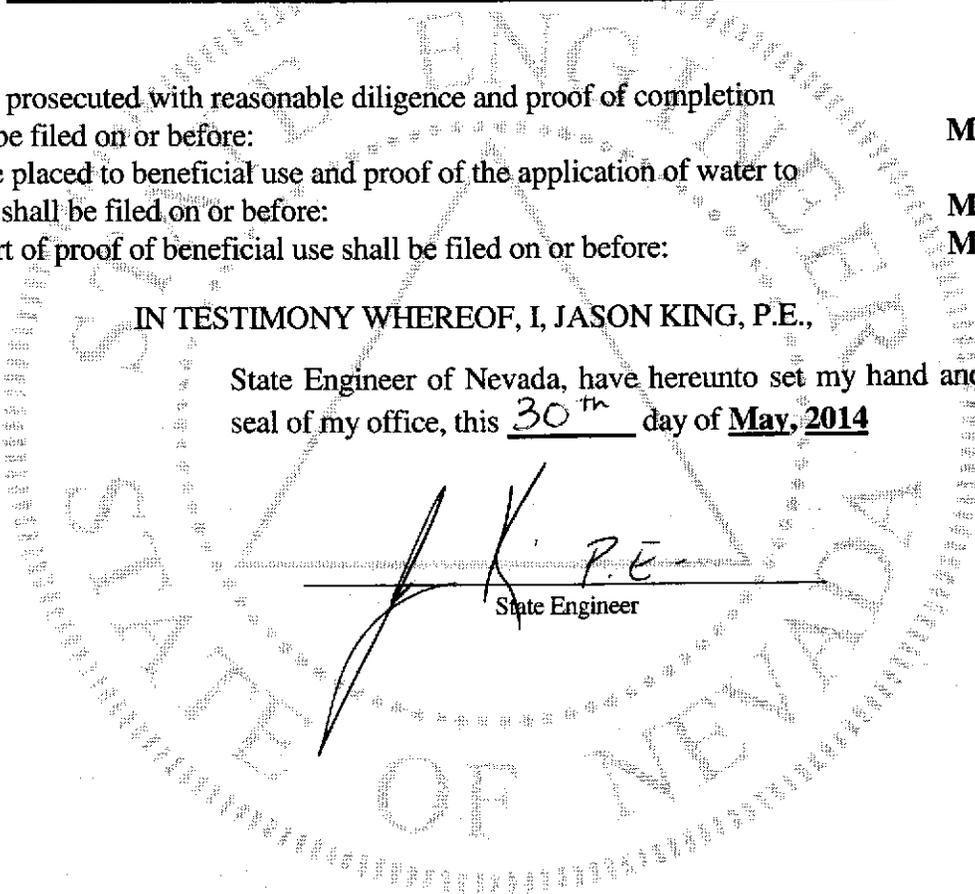

May 30 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of May, 2014

State Engineer

Nevada 89447 hereby make(s) application for permission to change the
State and ZIP Code

Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit 57867

RECEIVED
 2013 SEP -9 PM 12:10
 STATE ENGINEERS OFFICE

- The source of water is Underground
Name of stream, lake, underground, spring or other sources.
- The amount of water to be changed 723.95 acre feet seasonally 1.495 cfs
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
- The water to be used for irrigation
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
- The water heretofore used for irrigation
If for stock, state number and kind of animals.
- The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the SE 1/4 of the NE 1/4 of Section 27, Township 14 North, Range 25 East, Mount Diablo Meridian, at a point from which the southeast corner of Section 26, Township 14 North, Range 25 E bears South 62°07' East, 6050 feet distant.
- The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
within the SW 1/4 of the NE 1/4 of Section 27, Township 14 North, Range 25 East, Mount Diablo Meridian, or at a point from which the southeast corner of Section 26, Township 14 North, Range 25 Est, Mount Diablo Meridian, bears South 67° 58' 38" East, a distance of 7370.42 feet per Permit 57867.

Mason Valley
9 - 108
Ly

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

401 acres within Section 22, Township 14 North, Range 25 East, Mount Diablo Meridian. See Permit 57867.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Same as Item 7.

9. Proposed use will be from April 1 to November 30 of each year.
Month and Day Month and Day

10. Existing use permitted from April 1 to November 30 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, pump and ditches

12. Estimated cost of works \$50,000

13. Estimated time required to construct works one year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use three years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This permit would allow the use of an additional well to supply water for the irrigation of the existing place of use. This would greatly reduce the demands on the current well.
