#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.00223 cubic feet per second, sufficient to water 70 head of cattle, but not to exceed 1.57 acre-feet annually.**

Buried headbox, 1 1/4 inch pipe carries water approximately 50 feet to 3 troughs, over flow goes onto ground down the drainage about 450 feet to a pond roughly 70 feet across where it feeds naturally into Cow Creek and flows down to Cow Creek Reservoir. Cattle will use water at troughs, at pond, in stream of Cow Creek, and at Cow Creek Reservoir.

13. Miscellaneous remarks:

Water runs continuously all year long and feeds Cow Creek Drainage. Use is in conjunction with our grazing permit which includes additional acres.
