

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: ELKO COUNTY SCHOOL DISTRICT
Source: UNDERGROUND
Basin: RUBY VALLEY
Manner of Use: DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 08/30/1962

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of the waters of an underground source as heretofore granted under Permit 20677, Certificate 6558, is issued subject to the terms and conditions imposed in said Permit 20677, Certificate 6558, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.025 cubic feet per second or 18.1 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 26 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

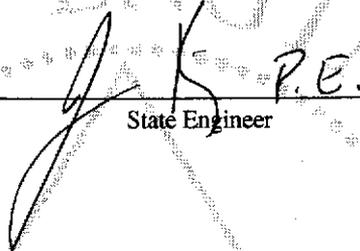

June 24 2019

Map in support of proof of beneficial use shall be filed on or before:

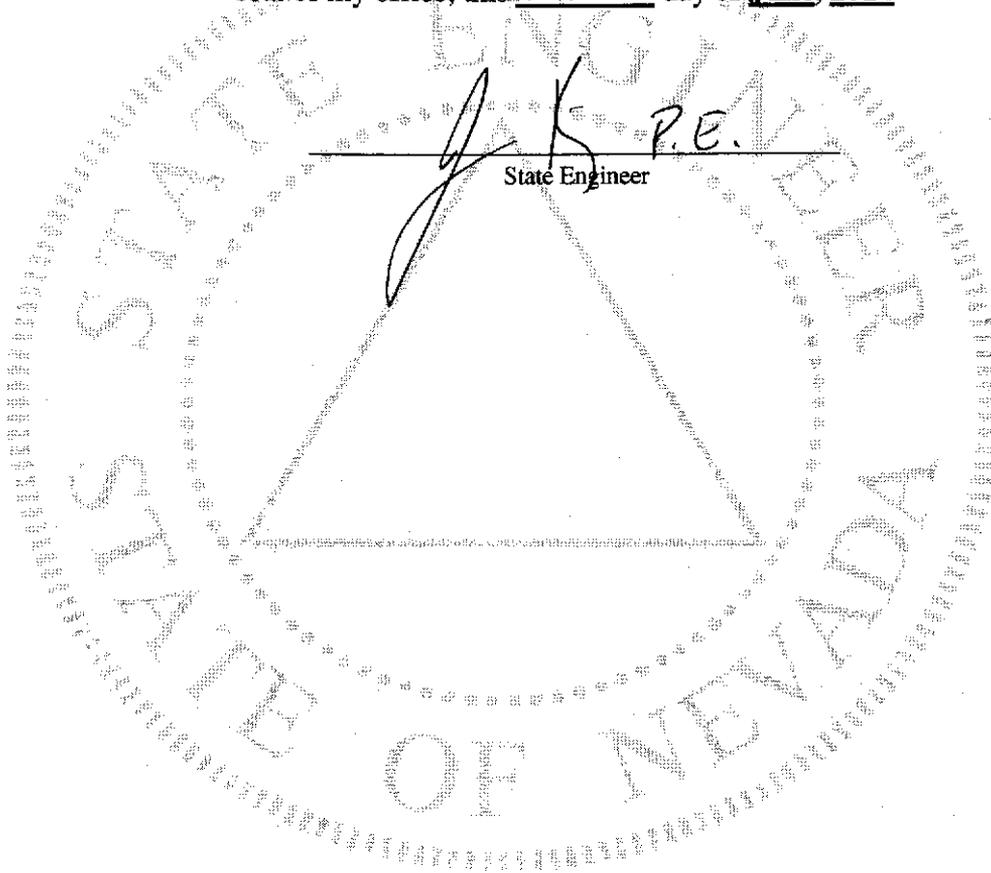

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of June, 2014

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office OCT 03 2013

Returned to applicant for correction OCT 14 2013

Corrected application filed OCT 12 2013 Map filed DEC 12 2013

The applicant Elko County School District (ECSD)
850 Elm Street - PO Box 1012 of Elko
Street Address or PO Box City or Town
Nevada 89801 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)
existing permit 20677, Certificate 6558

- The source of water is groundwater from a well
Name of stream, lake, underground, spring or other sources.
- The amount of water to be changed 0.025 cubic feet/second
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
- The water to be used for domestic
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
- The water heretofore used for domestic
If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
The water to be is located within the within NE1/4, SW1/4 of section 28, Township 31 N, Range 59 E, MDBM with a bearing of S76°1'37.2"E and a distance of 1508.6 feet to the quarter corner shown on the attached map.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
The existing point of diversion is located within NE1/4, SW1/4, Section 28, Township 31 N, Range 59 E, MDBM with a bearing of S81°33'E and a distance of 1873.3 feet to the quarter corner shown on the attached map.

 STATE ENGINEERS OFFICE

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

The diverted water will be used for the sample school as a drinking water supply as well as for lawn irrigation located within NE1/4, SW1/4, Section 28, Township 31 N, Range 59 E, MDBM

Sam
12/15/13

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

The existing diverted water is used for Ruby Valley School as a drinking water supply as well as for lawn irrigation located within NE1/4, SW1/4, Section 28, Township 31 N, Range 59 E, MDBM

Sam
12-15-13

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

A new well has been proposed. Water will be extracted from this well through a submersible pump then conveyed through PVC piping to the existing pump house for flow control and distribution. See attached plan/specifications for details

12. Estimated cost of works \$50,000 to \$100,000

13. Estimated time required to construct works Two months

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Two months

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The proposed new well is to replace the existing well located down-gradient of the school septic leach field. The new well is moved to a new location to avoid the potential leach field drainage. Water extracted from the new well will be used as drinking water for the Ruby Valley School staff and students as well as for lawn irrigation.

16. Miscellaneous remarks:

A hydrogeological investigation has been conducted to explore regional groundwater flow direction in this area. A pumping test using the existing well/pump was also conducted to determine groundwater yield and water quality in the local aquifer.
