

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: **ORMAT NEVADA, INC.**
Source: **STREAM (TRUCKEE RIVER)**
Basin: **TRUCKEE CANYON SEGMENT**
Manner of Use: **INDUSTRIAL**
Period of Use: **AS DECREED**
Priority Date: **AS DECREED**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of the Truckee River as heretofore granted under Permit 25915, Certificate 9738, which changed the point of diversion and place and manner of use of a portion of Claim 609, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit is approved for the entire 6.00 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 4.10 acre-feet, can be diverted annually. Additional diversion up to the total 6.00 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 4.10 acre-feet to be exceeded.

This permit is subject to the continuing jurisdiction and regulation by the Federal Water Master and State Engineer.

Monthly records of water use must be kept and reported annually to the State Engineer and the Federal Water Master no later than February 15 of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0629 cubic feet per second or 6.0 acre-feet as decreed.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 19 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

June 19 2018

Map in support of proof of beneficial use shall be filed on or before:
