

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: TRI GENERAL IMPROVEMENT DISTRICT
Source: UNDERGROUND
Basin: TRACY SEGMENT
Manner of Use: MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 02/10/1982

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 45313, is issued subject to the terms and conditions imposed in said Permit 45313, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.27 cubic feet per second or 11.3 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 6 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 6 2024

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 6th day of May, 2014

P.E.
State Engineer

STATE ENGINEERS OFFICE

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 11.3 AFA along with pro-rata share of diversion rate
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Municipal
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Quasi-Municipal and domestic
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the SE1/4SW1/4 Section 36 T20N, R22E, MDM, or at a point from which the SE corner of section 36, T20N, R22E, MDM, bears S 70° 15' 16" E, a distance of 3,229.74 feet. (refer to map filed under Application No. 62260)
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
within the NW1/4 SE1/4 of Section 16, T19N, R21E, MDM, or at a point from which the SW corner of said Section 16 bears S 71° 01' 53" W, a distance of 4245.42 feet. (refer to map field under Permit No. 28864)

T.S.
6-83
54

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

See attached Exhibit "A" and supporting map filed under Application No. 83083.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Portions of the W1/2SE1/4 AND SE1/4SE1/4 of Section 16, T19N, R21E, MDM.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

The proposed works motor, pump, totalizing meter and pipeline to municipal customers within the proposed place of use.

12. Estimated cost of works Existing

13. Estimated time required to construct works Existing

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 10 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water will be used to serve customers within the service area of applicant. TRI Center is a large industrial park within Storey County.
