

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: CALIENTE PUBLIC UTILITIES
Source: UNDERGROUND
Basin: LOWER MEADOW VALLEY WASH
Manner of Use: MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 05/14/1941

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 10662, Certificate 3052, is issued subject to the terms and conditions imposed in said Permit 10662, Certificate 3052, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Pursuant to NRS 534.110(3), monthly records shall be kept of the effect of pumping this well on other previously existing wells that are located within 2,500 feet of this well and reported to the State Engineer on an annual basis by February 15th of the following year. Any pumping of water in this well may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of this well, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.978 cubic feet per second or 395.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 19 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

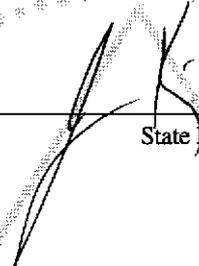

November 19 2019

Map in support of proof of beneficial use shall be filed on or before:

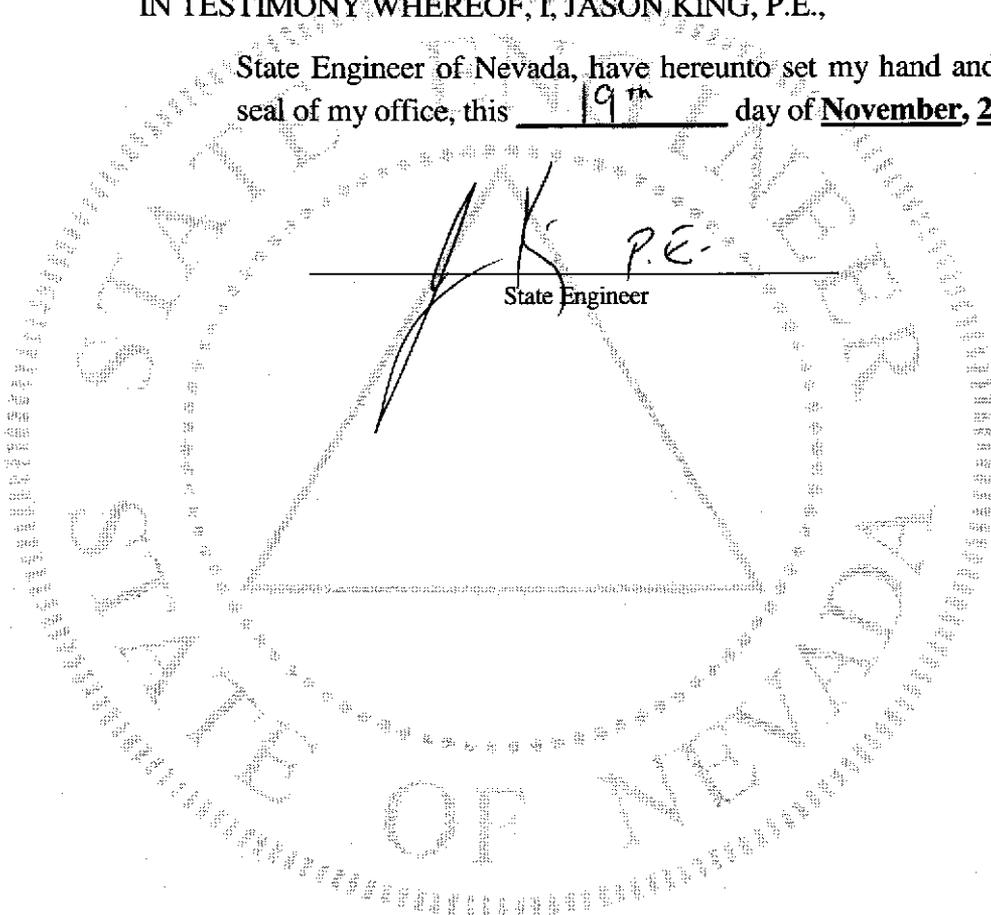

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 19th day of **November, 2014**

 P.E.

State Engineer

AMENDED

Application No. 83307

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY
Date of filing in State Engineer's Office DEC 12 2013
Returned to applicant for correction DEC 23 2013
Corrected application filed APR 22 2014 Map filed APR 22 2014

The applicant Caliente Public Utilities, acting on behalf of the City of Caliente
P.O. Box No. 1006 of Caliente
Street Address or PO Box City or Town
Nevada 89008 State and ZIP Code hereby make(s) application for permission to change the

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit 10662/ Certificate 3052

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 0.978 c.f.s (395.0 acre-feet annually)
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Municipal
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Municipal
If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
SW1/4 NE1/4 of Section 8, T4S, R67E, M.D.B. & M., and located at a point North 11°29'33.37" East 751.178' from the center point of said Section 8.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
NW1/4, SW1/4 of Section 8, T4S, R67E, M.D.B. & M., or at a point from which the SW corner of said Section 8, bears South 2 degrees 37' West, 2,495.00 feet.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

See Attached.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

SE1/4 NE1/4; and the SE1/4 of Section 7; NE1/4 NW1/4, S1/2 NW1/4, SW1/4 NE1/4, NW1/4 SE1/4, and N1/2 SW1/4 of Section 8, T4S, R67E, M.D.B. & M.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Water will be diverted through either of two underground water wells capable of producing at least 1.0 cfs, equipped with adequate motor and pump, to deliver water to the existing municipal distribution system including municipal storage tanks.

12. Estimated cost of works \$0 - Wells already completed.

13. Estimated time required to construct works 14" dia. well, depth of 150 feet, producing approx. 500 gpm
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The City of Caliente intends to add a point of diversion so that one and/or two wells can be used to provide municipal drinking water of sufficient quality and quantity to its citizenry. The well will allow the City to meet its obligation to meet peak demands and provide available source for future growth.

16. Miscellaneous remarks:

10.0 acre-feet annually and 0.022 cfs will remain at the existing point of diversion.
