

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: PAUL AND JOANN MILLER
Source: UNDERGROUND
Basin: WINNEMUCCA SEGMENT
Manner of Use: COMMERCIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 07/20/1972

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the manner and place of use of a portion of the waters of an underground source as heretofore granted under Permit 76928, is issued subject to the terms and conditions imposed in said Permit 76928 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The approval of Permit 83336 and Permit 83337 totally abrogates Permit 76928.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 235.28 acre-feet annually is abrogated from the base right. However, pursuant to NRS 533.3703 only 200.0 acre-feet (the net consumptive use amount) at 0.90 cubic feet per second can be diverted annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 2 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

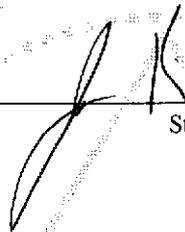

May 2 2017

Map in support of proof of beneficial use shall be filed on or before:

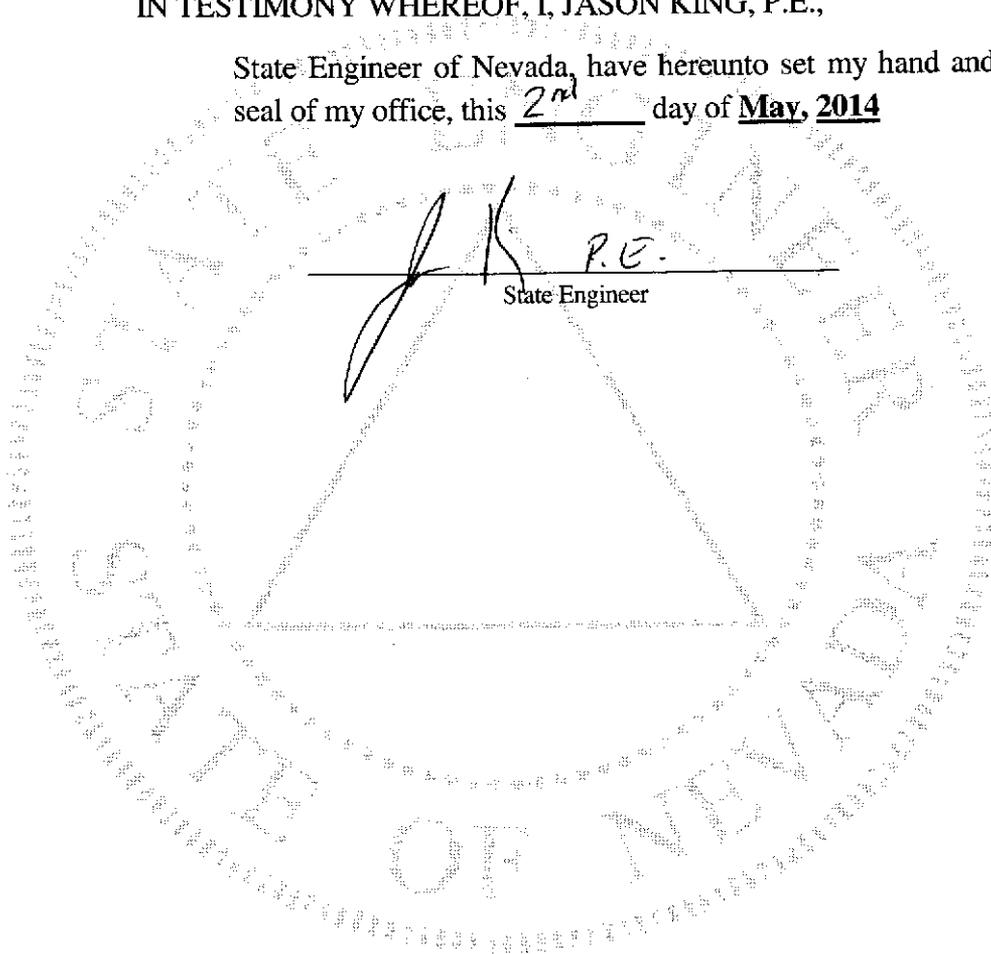

May 2 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 2nd day of May, 2014

 P.E.

State Engineer
