

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of Permittee: ROBERT A. PELTIER
Source: UNDERGROUND
Basin: CLOVER VALLEY
Manner of Use: IRRIGATION
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 12/27/2013

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued as a supplemental right to Claim of Vested Right V04726, and any other surface water right appurtenant to the described place of use. Groundwater is only to be used when there is no surface water available.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 533.6 acre-feet annually for the irrigation of 133.4 acres within the described place of use, and not to exceed 4.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

July 23 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

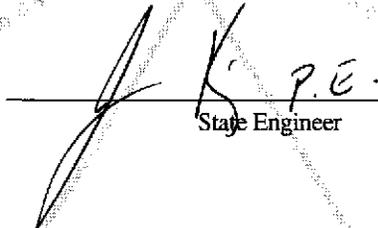

July 23 2019

Map in support of proof of beneficial use shall be filed on or before:

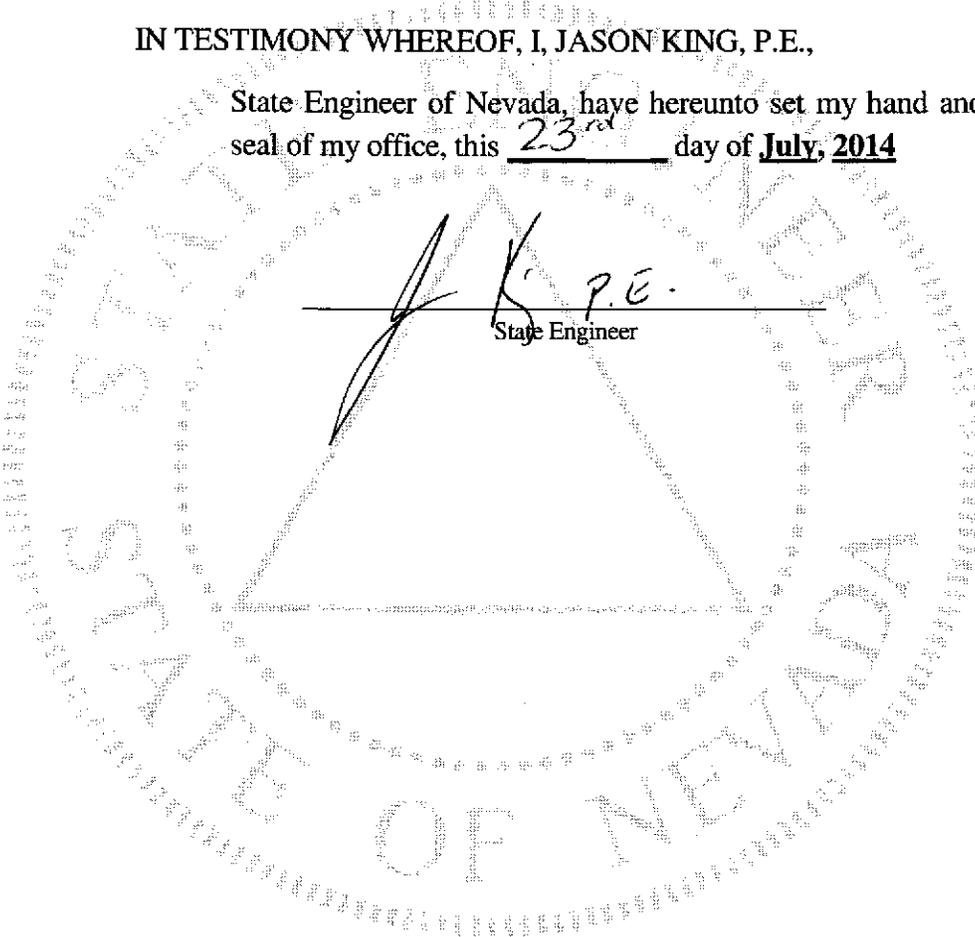

July 23 2019

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23rd day of July, 2014

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of Filing in State Engineer's Office DEC 27 2013

Returned to applicant for correction _____

Corrected Application filed _____ Map filed DEC 27 2013

Robert A. Peltier

The applicant _____
 H.C. 60 Box 182 _____ of Wells _____
Street Address or P.O. Box City or Town
 Nevada 89835 _____
State and ZIP Code

hereby make(s) application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

RECEIVED
 2013 DEC 27 AM 9:32
 STATE ENGINEERS OFFICE

1. The source of water is Underground
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 1.0 CFS or 533.60 AFA
One second foot equals 448.83 gallons per minute.
- (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for Irrigation
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
- (a) Irrigation, state number of acres to be irrigated 133.4
- (b) Stockwater, state number and kind of animals _____
- (c) Other use (describe fully in No. 12) _____
- (d) Power:
- (1) Horsepower developed _____
- (2) Point of return of water to stream _____

Clover Valley
 10 - 177
 E1

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the SE 1/4 of the NE 1/4 of Section 6, T34N, R62E, MDM at a point from which the East 1/4 Corner of said Section 6 bears South 5°36'00" East, 500' distant.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

The SW1/4 NE 1/4, SE 1/4 NE 1/4, NW 1/4 SE 1/4, and the NE 1/4 of the SE 1/4 all in Section 6, T34N, R62E, MDM.

7. Use will begin about 1 January and end about 31 December of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well, pump pipeline and pivot irrigation system

9. Estimated cost of works: In excess of \$100,000.00

10. Estimated time required to construct works: 2 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This water would be used to supplement water from V04726 which no longer regularly is sufficient to irrigate the entire place of use.
