**Manner of Use:** MINING AND MILLING  
**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 11/08/1976

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 30804, Certificate 10032 is issued subject to the terms and conditions imposed in said Permit 30804, Certificate 10032 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.85 cubic feet per second or 322.6 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 4 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

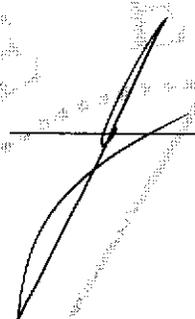

September 4 2017

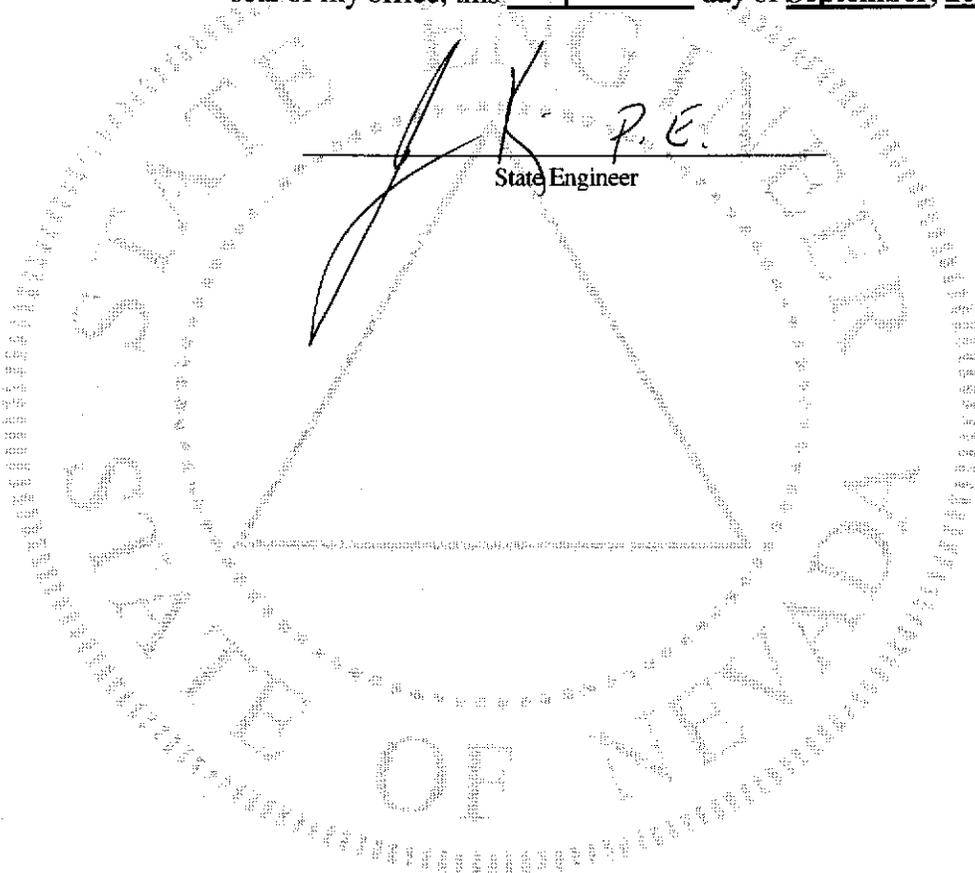

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 4<sup>th</sup> day of **September, 2014**

- The source of water is Underground  
Name of stream, lake, underground, spring or other sources.
- The amount of water to be changed 0.85 second feet, 105.12 million gallons annually  
~~0.446~~ Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
- The water to be used for Milling and Mining  
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
- The water heretofore used for Milling and Domestic  
If for stock, state number and kind of animals.
- The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)  
SE 1/4 of the NW 1/4 of Section 11, Township 3 North, range 40 East, MDB&M, or at a point from which the Southwest corner of section 11 bears S24d32'13"W a distance of 3718.65 feet.
- The existing point of diversion is located within (If point of diversion is not changed, do not answer.)  
SE 1/4 of the NE 1/4 of Section 10, Township 3 North, Range 40 East, MDB&M, or at a point from which the Southeast Corner of said Section 10 bears S01d16'44"E a distance of 3724.63 feet.

BSV TF  
 10-1377  
 5.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

SE 1/4 of the NW 1/4 of Section 11, Township 3 North, Range 40 East, MDB&M

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

NW 1/4 of the NW 1/4 of Section 11, Township 3 North, Range 40 East, MDB&M

9. Proposed use will be from Jan 1st to Dec 31st of each year.  
Month and Day Month and Day

10. Existing use permitted from Jan 1st to Dec 31st of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drill Well, cased, Motor and Pump, 250 feet of pipeline

12. Estimated cost of works \$100,000

13. Estimated time required to construct works 90 days

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 1 year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Freshwater generated from the onsite well will be utilized for gravity concentration and precious metal extraction from various types of ore.

16. Miscellaneous remarks:

A new processing plant is scheduled for construction in Mid-January 2014. The new facility will be located in the SE 1/4 of the NW 1/4 of Section 11, Township 3 North, Range 40 East, MDB&M
