

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: HOMESTAKE MINING COMPANY
Source: UNDERGROUND
Basin: DIAMOND VALLEY
Manner of Use: MINING, MILLING, DEWATERING, AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 10/19/1964

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 74679, is issued subject to the terms and conditions imposed in said Permit 74679 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 73204, 77447, 77448, 77449, 79705, 79706, 79707, 80797, 80799, 81229, 81230, 81612, 81653, 83501, 83502, 83503, 83504, 83505, 83506 and 83507 shall not exceed 2,111.252 acre-feet annually. However, initially only the net consumptive use amount of 1,944.4 acre-feet can be used. Additional diversion up to the total 2,111.252 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 1,944.4 acre-feet to be exceeded.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.014 cubic feet per second or 10.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

June 11 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

June 11 2017

Map in support of proof of beneficial use shall be filed on or before:
