#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 64965, is issued subject to the terms and conditions imposed in said Permit 64965 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water herein granted at any and all times.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permits 64965 and 83510 shall not exceed 0.0156 cubic feet per second or 11.2 AFA, sufficient to water 500 head of cattle.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0078 cubic feet per second or 5.60 acre-feet annually or sufficient to water 250 head of cattle.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 16 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

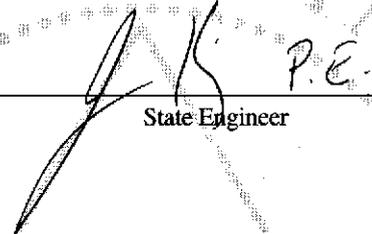

April 16 2018

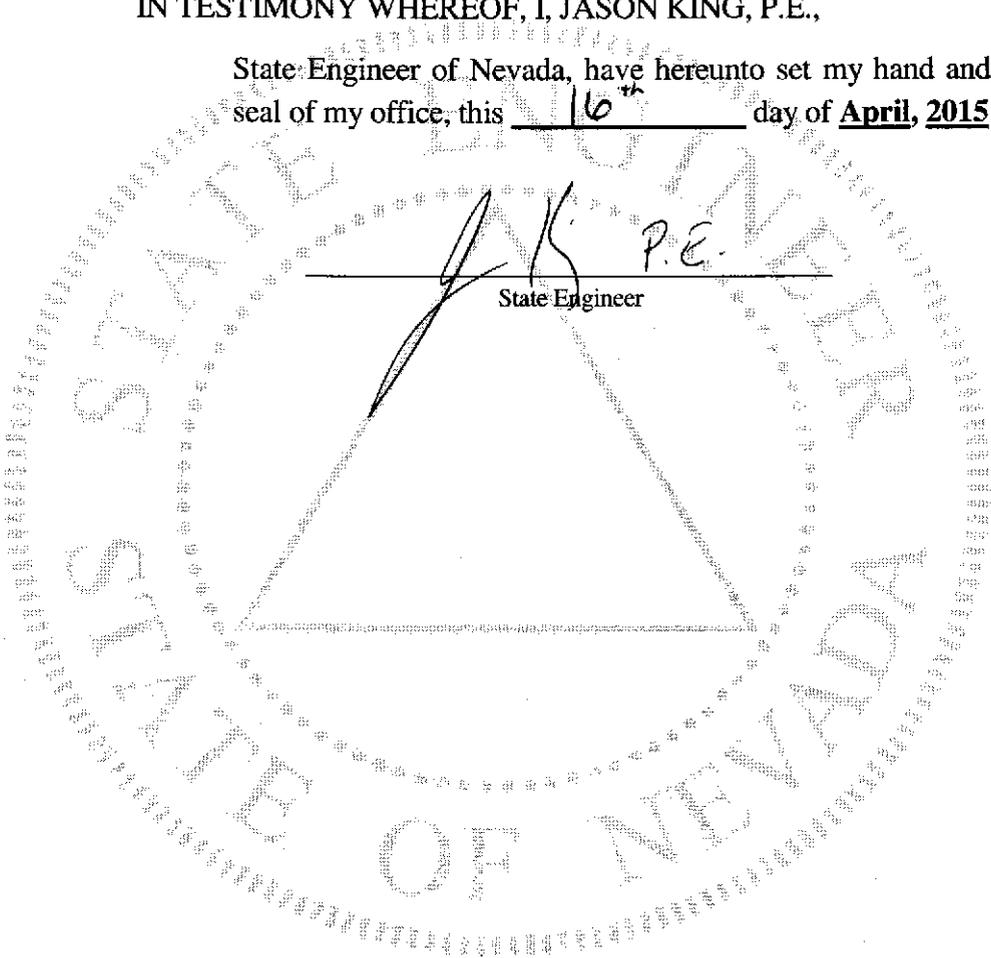

Map in support of proof of beneficial use shall be filed on or before:
