16. Miscellaneous Comment

Five temporary change applications are being submitted to change the place of use and point of diversions of four permitted water rights: 63532, portion of 63533, 79722, and two change applications to change portions of 79723. The proposed place of use will be the same location for all five change applications. The proposed place of use includes the SNWA Wahoo Ranch and Center Pivot No. 6 which is located within SNWA Harbecke Ranch. Additional groundwater rights are being transferred in from 63532 and 63533 to account for the additional irrigated acreage of Center Pivot No. 6. The applicant requests a combined duty term to allow co-mingling of the water rights, as these rights will have a communal piping system. It is requested that a total combined duty of 2,815.303 acre feet to irrigate 703.83 acres at 4.0 acre feet per acre be approved. The table below lists the current and proposed temporary applications.
