5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 31, T.30N.,R.47E., M.D.M., from which the S. $\frac{1}{4}$ -corner of said section 31 bears S.0°50'W., 835 ft. distant

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

T.29N.,R.47E., M.D.M. all of Sections 6, 7 and 18; and W $\frac{1}{2}$ of Sections 5, 8 and 17.
T.30N.,R.47E., M.D.M. all of Section 31.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A small stilling basin (5 ft. x 5 ft. x 2 ft. depth) will be excavated at edge of spring, from which water will be pumped into haul truck furnishing water to portable drilling equipment at various sites within place of use.

9. Estimated cost of works: \$2,000.00

10. Estimated time required to construct works: two months

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: five years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

An exploration drilling project of approximately 40 holes, 300 ft. in depth, is planned on land under control of applicant (lease or located claims) within the region described in place of use; results from this exploration will govern future decision on mining potential. Calculations supporting annual total volume of water needed to support a possible jig plant will be submitted following initial analysis of drill results.

13. Miscellaneous remarks:

A temporary change application is also being submitted, with agreement by present owner of claim #07572, for use in the immediate future.
