

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: DRAGAN DJURISIC
Source: UNDERGROUND (EXISTING WELL)
Basin: LAS VEGAS VALLEY
Manner of Use: COMMERCIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 03/28/2014

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use under State Engineer's Amended Order No. 1054, dated April 15, 1992.

This permit is issued for commercial purposes on a single parcel further identified by Clark County Assessor as APN 176-23-501-008. Upon cessation of pumping for commercial purposes at this place of use, the water under this permit shall return to the groundwater source and no application to change will be allowed.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.01 cubic feet per second or 2.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

August 26 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

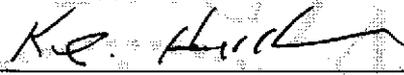

August 26 2017

Map in support of proof of beneficial use shall be filed on or before:

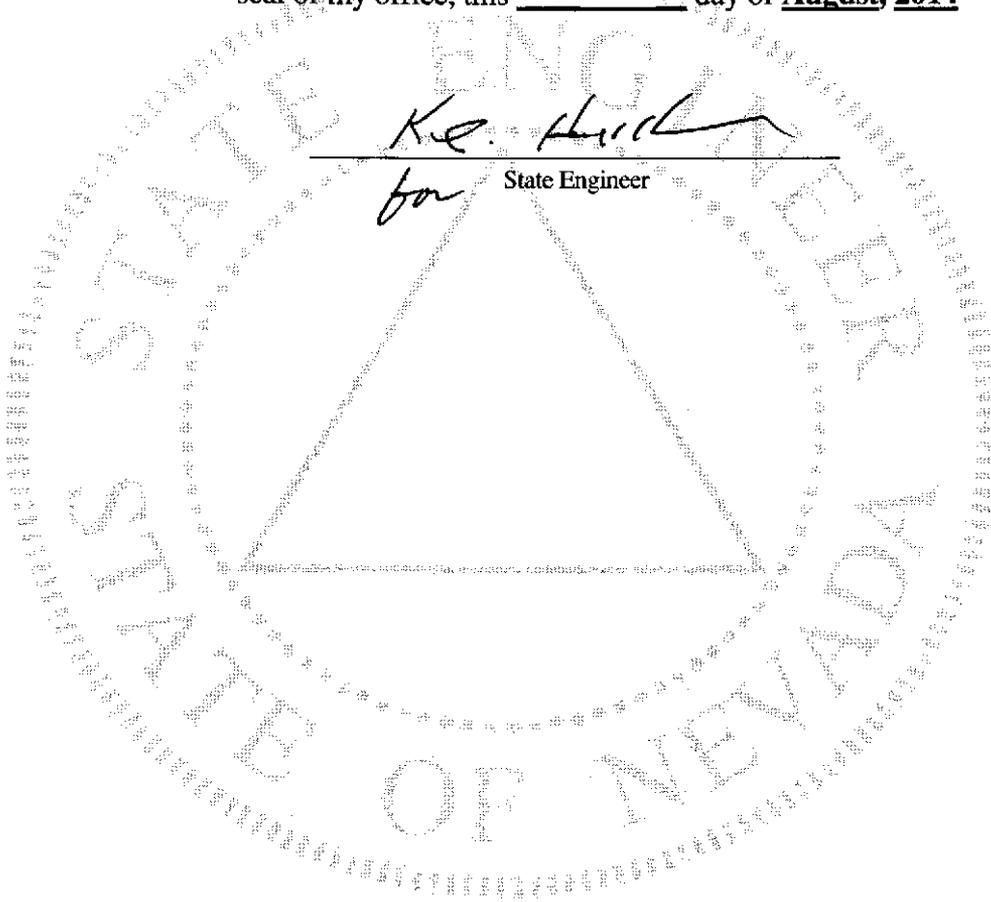

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of August, 2014

for State Engineer

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

THE NORTHEAST QUARTER (NE 1/4), OF THE NORTHEAST QUARTER (NE 1/4) OF SECTION 23, TOWNSHIP 22 SOUTH, RANGE 60 EAST, M.D.M., CLARK COUNTY, NEVADA. BEARING N88DEG. 48' 05" W TO THE 1/4 CORNER OF SECTION 14/23, T22S, R60E M.D.M., CLARK COUNTY, NEVADA

1761.86 FEET 9/5/14 DWR

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

THE NORTHEAST QUARTER (NE 1/4), OF THE NORTHEAST QUARTER (NE 1/4) OF SECTION 23, TOWNSHIP 22 SOUTH, RANGE 60 EAST, M.D.M., CLARK COUNTY, NEVADA.

7. Use will begin about January 1, and end about December 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing drilled well with a pump and motor. Log: #54457

9. Estimated cost of works: Existing Well

10. Estimated time required to construct works: Existing well

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: immediately

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water to be used for cleaning and servicing tractor-trailer rigs as well as in the office (toilet, and bathroom sink, see fixture count). A permanent garage shelter is under design currently which may include additional water fixtures.

13. Miscellaneous remarks:

This is an application for a New Commercial Permit. The existing well was drilled in October 1979 (completed on October 12) as a domestic well. No permit is on file @NDWR, just the Well Drillers Report Log #54457. The land was rezoned Light Manufacturing (M-1), and this lot has changed hands since then. The current owner wishes to apply for a commercial use permit to be in compliance.
