The spring has been improved and water is delivered to one 800 gallon stock trough and a small stock pond via approximately 300 feet of 2 inch pipeline. In the course of performing surveying for the ranch we have determined that the point of diversion and place of use shown on the permit as issued is incorrect. The permit shows the point of diversion and place of use as being within the SE1/4 SE1/4 of Section 2, T.37 N., R.65 E., M.D.B. & M. which would place the spring on public lands. According to our recent survey the spring is actually located within the NE1/4 NE1/4 of Section 11, T.37 N., R.65 E., M.D.B. & M. which is located on private lands controlled by the permittee. We are filing this application to change the point of diversion and place of use of Permit 38978 to correct this error.

16. Miscellaneous remarks:

The source of water under this application is Tepee Spring as indicated on the original application. The permit issued under Permit 38978 indicates that the name of the source is spelled Tepee Spring. The spelling of the spring name as shown on the original application was used for this application.
