

**THE STATE OF NEVADA****PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: NEVADA READY MIX, INC.
Source: UNDERGROUND
Basin: LAS VEGAS VALLEY
Manner of Use: MINING, MILLING, AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/26/1963

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 53909, Certificate 13984, is issued subject to the terms and conditions imposed in said Permit 53909, Certificate 13984 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 50096, Certificate 13982; Permit 53909, Certificate 13984; Permit 75355, Certificate 19298 and Permit 83765, having the same place of use, shall not exceed 414.24 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for mining and milling purposes on 441.90 acres of quarry, further described by the Clark County Assessor as APN's: 126-34-000-002, 126-35-000-002, 126-35-000-003, 126-36-301-001, 137-03-000-002, and 137-04-000-001.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.243 cubic feet per second or 175.925 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 23 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

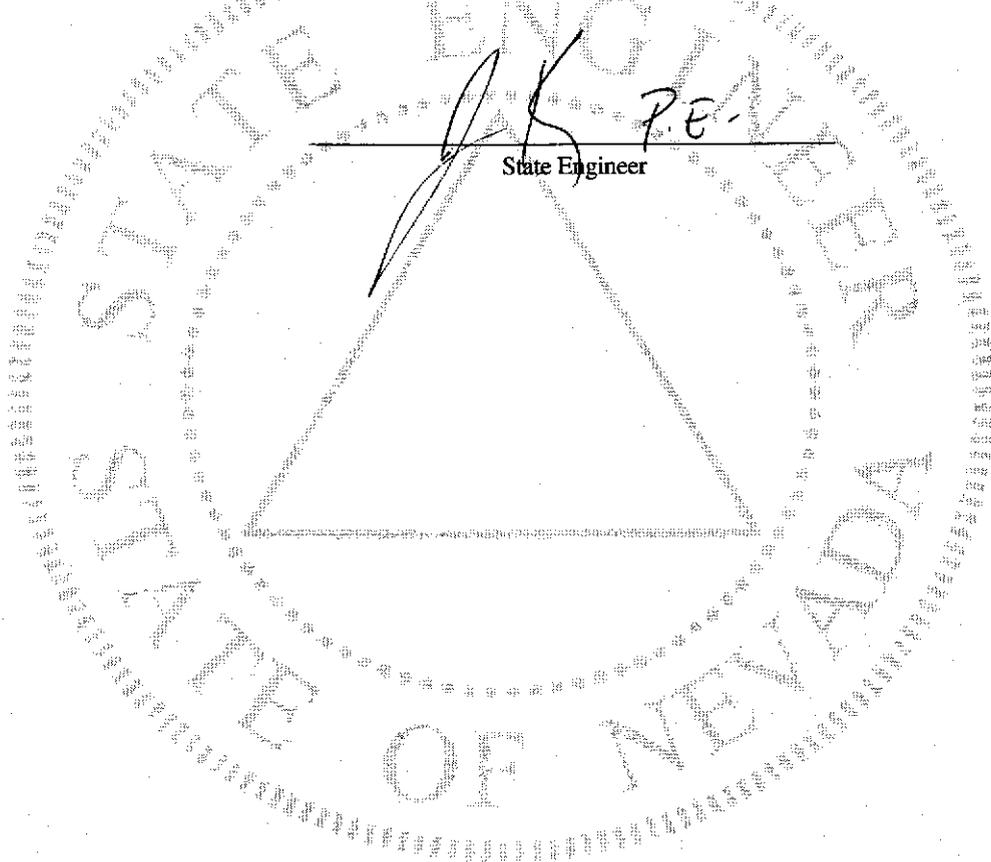

December 23 2017

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23rd day of December, 2014

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office APR 23, 2014

Returned to applicant for correction APR 29, 2014

 STATE ENGINEER OFFICE

1. The source of water is an underground source
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 175.98 acre-feet (0.243 cfs)
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for mining and domestic purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for mining and domestic purposes
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the NE 1/4 of the SE 1/4 of Section 36, T 19 S, R 59 E, MDB&M, at a point that bears S.21°16'W., a distance of 513.5 ft. from the E 1/4 corner of said Section 36.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
the NE 1/4 of the SE 1/4 of Section 36, T 19 S, R 59 E, MDB&M, at a point that bears S.41°30'W., a distance of 686.70 ft. from the E 1/4 corner of said Section 36.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

SEE ATTACHMENT "A"

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

SEE ATTACHMENT "A"

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well, pump, pressure tank, and distribution pipeline.

12. Estimated cost of works \$5,000

13. Estimated time required to construct works Existing

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use three (3) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

In order to better balance the pumping rates and equipment use between the two wells, a portion of the water now pumped from the replacement well #2 under Permit No. 53909, Certificate No. 13984, will be pumped from the original well #1.

16. Miscellaneous remarks:
