

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: JERRY CARR WHITEHEAD
Source: UNDERGROUND
Basin: LAMOILLE VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 05/09/2014

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permit 83832 is issued, and must remain, entirely supplemental to existing surface water rights under DHR-00421 (Humboldt River Decree) and as such, cannot be pumped unless there is no surface water available.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.0 cubic feet per second or 241.5 acre-feet annually, but not to exceed 3.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 7 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

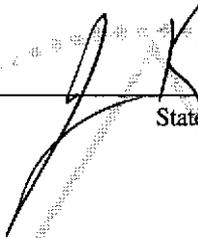

October 7 2019

Map in support of proof of beneficial use shall be filed on or before:

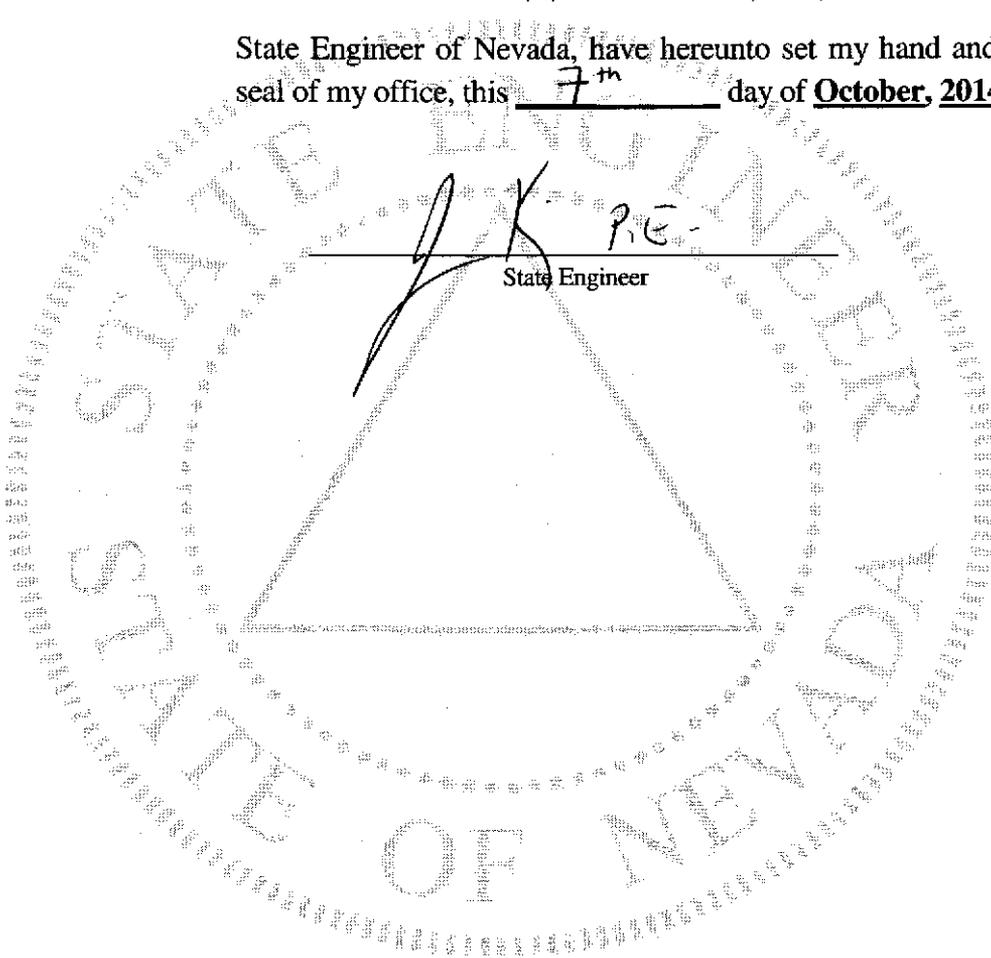

October 7 2019

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 7th day of **October, 2014**

State Engineer

Application No. 83832

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>MAY 09 2014</u>
Returned to applicant for correction	_____
Corrected Application filed	Map filed <u>MAY 09 2014</u>

The applicant Jerry Carr Whitehead
10389 Double R Blvd. of Reno
Street Address or P.O. Box City or Town
Nevada 89521 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

- The source of water is underground
Name of the stream, lake, underground, spring or other sources.
- The amount of water applied for is 2.0
One second foot equals 448.83 gallons per minute.
 (a) If stored in a reservoir give the number of acre-feet _____
- The water is to be used for irrigation and domestic
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
- If use is for:
 - Irrigation, state number of acres to be irrigated 80.5 acres
 - Stockwater, state number and kind of animals _____
 - Other use (describe fully in No. 12) _____
 - Power:
 - Horsepower developed _____
 - Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

within the NW¼SW¼ Section 3, T.33N., R.58E., M.D.M., from which the NW corner of said section 3 bears N.24°30'W., 3,020 ft. distant.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

T.33N., R.58E., M.D.M.

Section 3: Lots 1 & 2 of the V-7 Ranchos, as shown on the "Map of Division into Large Parcels" for Leo Damele & Sons, Inc., Elko County Recorder office file #161269, and dated March 12, 1982, being portions of government Lot 4, SW¼NW¼ & NW¼SW¼.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled and cased well; pump, motor and sprinkler piping system across proposed place of use.

9. Estimated cost of works: \$50,000.00

10. Estimated time required to construct works: three years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: five years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Owner proposes to irrigate existing fields, with addition of marginal land not previously irrigated. Concurrent with this application is the presentation of a report of conveyance of portions of Humboldt River decreed claim #00421 to present owner, as specifically described at time of creation of V-7 Ranchos, being 0.0 acres for Lot 1, and 24.0 acres of harvest crop, priority 1901, and 13.59 acres of harvest crop, priority 1890, for Lot 2.
