

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: INTERMOUNTAIN LAND CO.
Source: UNDERGROUND
Basin: WARM SPRINGS VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/19/1974

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 49670, Certificate 11975, is issued subject to the terms and conditions imposed in said Permit 49670, Certificate 11975 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Permits 83863 and 83864 are approved for the entire 60 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base rights, 49.5 acre-feet, can be diverted annually. Additional diversion up to the total 60 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 49.5 acre-feet to be exceeded.

The issuance of this permit expires Temporary Permit 83862T.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 33.6197 acre-feet annually is abrogated from the base right. However, pursuant to NRS 533.3703 only 27.74 acre-feet (the net consumptive use amount) at 0.168 cubic feet per second can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 23 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

September 23 2017

Map in support of proof of beneficial use shall be filed on or before:

September 23 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23rd day of September, 2014

State Engineer
