THE STATE OF NEVADA

**PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: 2008 VLOT REVOCABLE TRUST DATED 2/7/2008
Source: UNDERGROUND
Basin: SMITH VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: EXPIRES DECEMBER 31, 2014
Priority Date: 05/09/1960

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the place of use of the waters of an underground source as heretofore granted under Permit 18822, Certificate 5921, is issued subject to the terms and conditions imposed in said Permit 18822, Certificate 5921 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 18822, Certificate 5921 and Temporary Permit 83866T shall not exceed 1,542.0 acre-feet annually for the irrigation of 385.5 acres within the described place of use.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer by February 15th of the following year.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 31, 2014, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(Continued on Page 2)

The total land irrigated under Permit 18822, Certificate 5921 and Temporary Permit 83866T and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 1,542.0 acre-feet annually for the irrigation of 385.5 acres within the described place of use. These permits for underground water are issued as a supplemental water supply to lands that have surface water rights from the Walker River as set forth in the Walker River Decree C-125 in Claim Numbers 73, 147, and 166, or from storage water, flood water, and underground water provided from the Walker River Irrigation District. The total diversion of water for irrigation from all sources shall not exceed the duty of water for this place of use as set forth in the Decree. Underground water shall not be pumped from the wells described in these permits except to the extent necessary to make up the portion of the entitled duty from Decree and storage water in any given year.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 5.0 cubic feet per second or 1,542.0 acre-feet annually, but not exceed 4.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

Map in support of proof of beneficial use shall be filed on or before:
