

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: R. JEFF WILLIAMS AND DESSA K. WILLIAMS
Source: UNDERGROUND
Basin: ELKO SEGMENT
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 06/02/2014

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. The well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit is to serve Lots 3 and 6 of Block 54 of Meadow Valley Ranchos Unit Number 3.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.1 cubic feet per second or 2.24 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

October 28 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

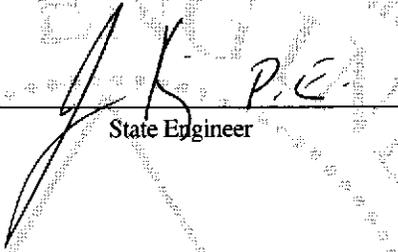

October 28 2017

Map in support of proof of beneficial use shall be filed on or before:

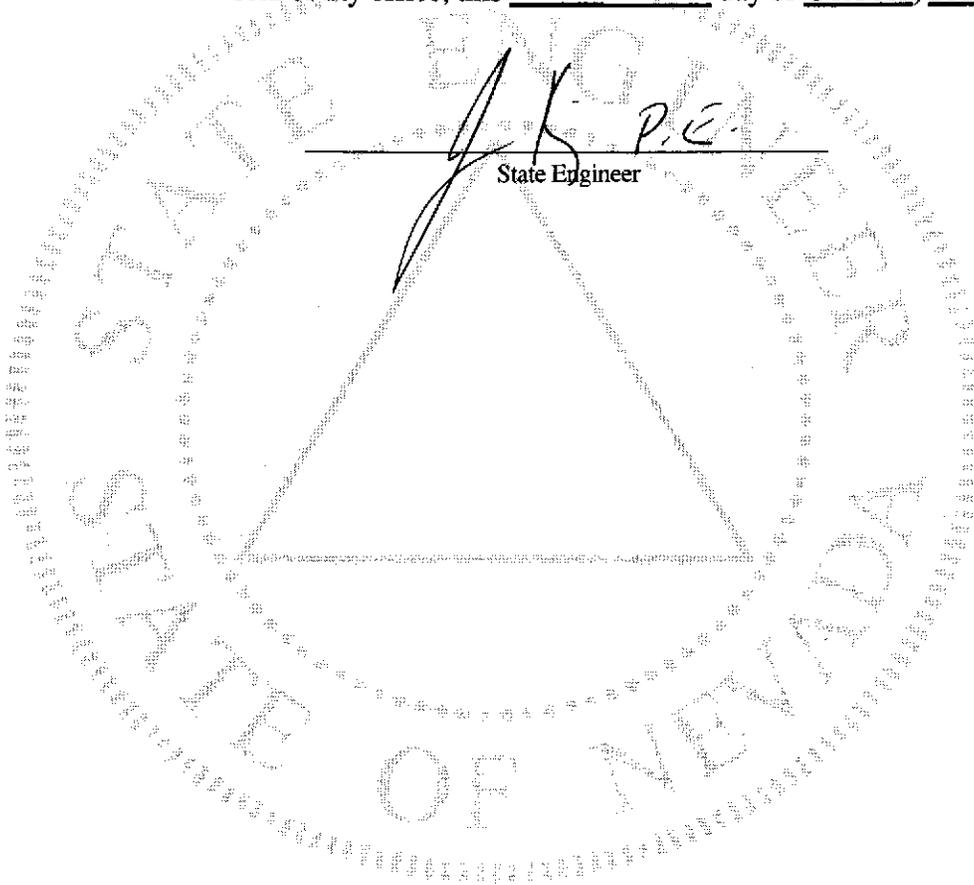

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 28th day of **October, 2014**

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUN 02 2014

Returned to applicant for correction _____

Corrected application filed _____ Map filed JUN 02 2014

The applicant R. Jeff Williams and Dessa K. Williams

Osino 163-5 of Elko
Street Address Or P.O. Box City or Town

Nevada 89801 hereby make(s) application for permission to appropriate
State and Zip code No.

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources
2. The amount of water applied for is 0.1 cfs
One second foot equals 448.83 gallons per minute.
(a) If stored in reservoir give number of acre-feet _____
3. The water to be used for Quasi - municipal
Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NE1/4 SW1/4 of Section 9, T.35 N., R.56 E., M.D.B. & M., at a point from which the
South 1/4 Corner of said Section 9 bears S 19° 26' 28" E, 2127.97 feet.

6. Place of use (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Portions of the NE1/4 SW1/4 of Section 9, T.35 N., R.56 E., M.D.B. & M.
(Meadow Valley Ranchos Unit 3, Block 54, Lots 3 & 6, being APN 035-054-003 and
APN 035-054-006)

7. Use will begin about January 1st and end about December 31st of each year.
Month and Day Month and Day

8. Description of proposed works (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

Drilled well and pipelines.

9. Estimated cost of works: \$10,000.00

10. Estimated time required to construct works: 3 years
If well completed, describe works

11. Estimated time required to complete the application of water to beneficial use 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

The water under this application is to serve 2 single family residences.
Please see attached description of proposed project.

\$360 FILING FEE AND SUPPORTING MAP MUST ACCOMPANY APPLICATION

**Attachment to Application to Appropriate Water
R. Jeff Williams and Dessa K. Williams**

The applicants control Permit 62153 which is issued to serve three single family residences located on Lots 5 and 6 of Block 50 and Lot 3 of Block 54 in Meadow Valley Ranchos, Unit No. 3 Subdivision. These lots were created by subdivision which was recorded on November 8, 1962 as File No. 10835.

Lots 5 and 6 of Block 50, which are adjacent lots, lie on the North side of the county road now known as Dobbin Drive, and Lot 3 of Block 54 which lies directly across the street on the South side of Dobbin Drive. A pipeline runs from the well located on Lot 6 of Block 50 across Dobbin Drive to serve Lot 3 of Block 54.

The applicants also control Lot 6 of Block 54 which lies adjacent to and directly South of Lot 3 of Block 54. There is currently a well drilled on Lot 6 of Block 54 which was drilled for and is utilized for domestic purposes.

Dobbin Drive is a gravel road. The applicants have had a recurring problem with the pipeline running from the well across the street to Lot 3 of Block 54 freezing and breaking due to the traffic on the road driving the frost level down to the pipe elevation. They have had to repair the pipeline and the road numerous times due to this problem.

The applicants would like to relieve this maintenance problem and in order to rectify the situation we propose the following:

We are submitting this application to appropriate water for quasi-municipal purposes. The point of diversion for this application is the existing domestic well located on Lot 6 of Block 54. The place of use for this application will be Lot 3 and Lot 6 of Block 54 thereby eliminating the need for the pipeline crossing the road from the well under Permit 62153.

Once the permit under the new appropriation is approved and issued we will transfer the 1.12 acre foot portion of water now permitted under Permit 62153 that applies to Lot 3 of Block 54 that will then be covered under the new appropriation to another location controlled by the applicants.
