

TEMPORARY

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: WILSON AND DONNA THOMAS
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: IRRIGATION
Period of Use: EXPIRES DECEMBER 31, 2015
Priority Date: 03/30/1961

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 19706, Certificate 6283, is issued subject to the terms and conditions imposed in said Permit 19706, Certificate 6283 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The total combined duty of water under Permit 19706, Certificate 6283 and Temporary Permit 83889T shall not exceed 776.16 acre-feet per season for the irrigation of 194.04 acres within Lyon County APN 012-271-03.

The total land irrigated under Permit 19706, Certificate 6283 and Temporary Permit 83889T and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 194.04 acres within the described place of use. This permit for underground water is issued as a supplemental water supply to lands that have surface water rights from the Walker River as set forth in Claim Number 63 of the Walker River Decree C-125, or from storage water provided from the Walker River Irrigation District. The total diversion of water for irrigation from all sources shall not exceed the duty of water for this place of use as set forth in the Decree. Underground water shall not be pumped from the well described in this permit except to the extent necessary to make up the portion of the entitled duty from Decree and storage water in any given year.

(Continued on Page 2)

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 31, 2015, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.24 cubic feet per second or 338.08 acre-feet per season.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

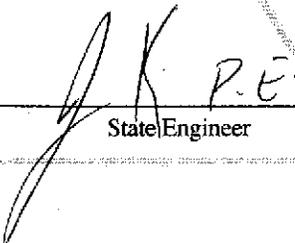

N/A

Map in support of proof of beneficial use shall be filed on or before:

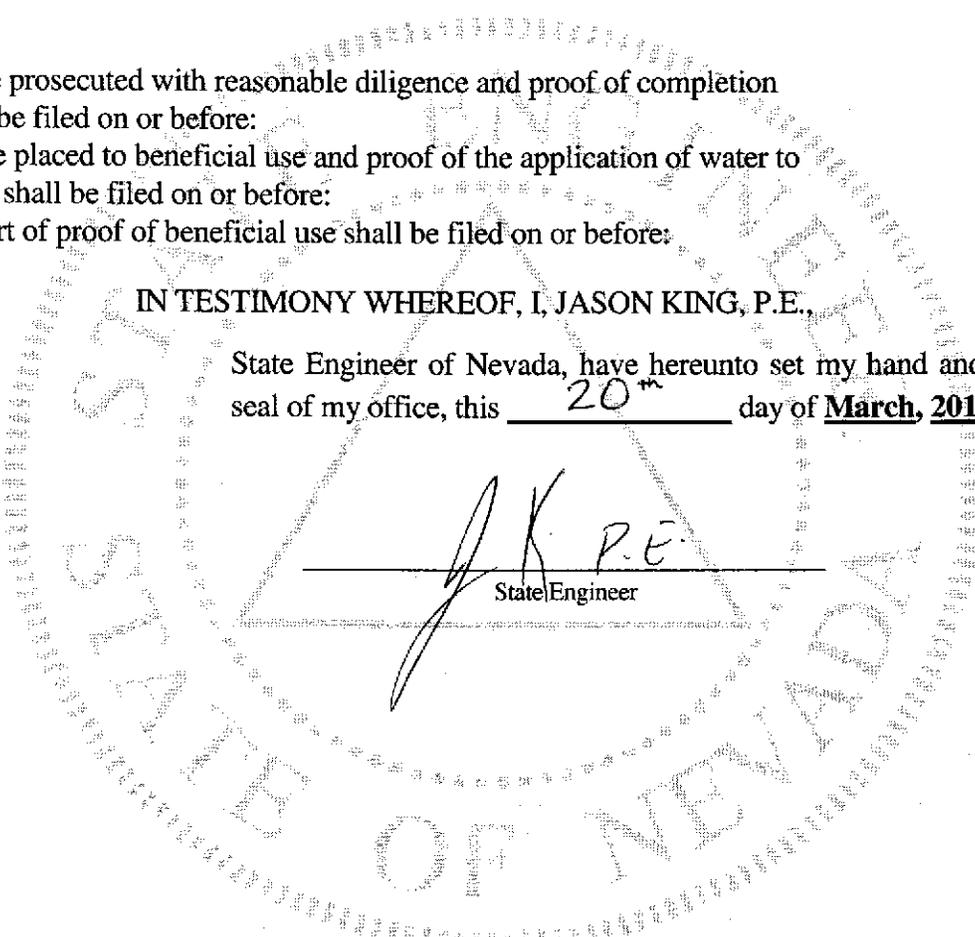

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 20th day of March, 2015

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUN 12 2014

Returned to applicant for correction _____

Corrected application filed _____ Map filed JUN 12 2014

The applicant Wilson and Donna Thomas
533 Highway 208 of Yerington
Street Address or PO Box City or Town
Nevada 89447 hereby make(s) application for permission to change the
State and ZIP Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 19706, Certificate No. 6283

1. The source of water is an Underground source
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 1.235 cubic feet per second
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Irrigation Purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Irrigation Purposes
If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
within the NE1/4 SW1/4 Section 11, T. 12N., R. 25E., M.D.M., or at a point from which the Southeast corner of said Section 11 bears South 66°28'33" East, a distance of 3,705.86 feet. Refer to map filed in support of this application.

6. The existing point of diversion ^{12N} is located within (If point of diversion is not changed, do not answer.)
the NE1/4 SW1/4 Sec. 11, T. 21N., R. 25E., M.D.B.&M., or at a point from which the SE corner of Sec. 11 bears S. 68°24'30" E., a distance of 3,615.44 feet. Refer to map filed in support of Permit No. 19706, Certificate 6283.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Place of use does not change.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

194.04 acres within portions of the W1/2 NE1/4, SE1/4 NW1/4, NE1/4 SW1/4, W1/2 NW1/4 of Section 11, and the E1/2 NE1/4 of Section 10, T.12N., R.25E., M.D.M. Reference is made to Lyon County Assessor's Parcel No. 012-271-03. Refer to map filed in support of Permit No. 19706, Certificate 6283.

9. Proposed use will be from April 1 to November 30 of each year.
Month and Day Month and Day

10. Existing use permitted from April 1 to November 30 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, equipped with a pump, motor and totalizing meter, and pipeline to existing irrigation distribution system.

12. Estimated cost of works \$150,000.00

13. Estimated time required to construct works One (1) Year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use N/A - Temporary Application

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The proposed well under this application is being drilled to provide an additional water source to Thomas Ranch, and will provide water to irrigate existing fields in production. Water will be piped to the fields from an existing irrigation distribution system within the place of use.
