**Name of Permittee:** VALLEY ELECTRIC ASSOCIATION, INC.  
**Source:** UNDERGROUND  
**Basin:** AMARGOSA DESERT  
**Manner of Use:** COMMERCIAL  
**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 12/06/1954

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 49885, Certificate 13475, is issued subject to the terms and conditions imposed in said Permit 49885, Certificate 13475 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.00385 cubic feet per second or 1.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

February 26 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

February 26 2017

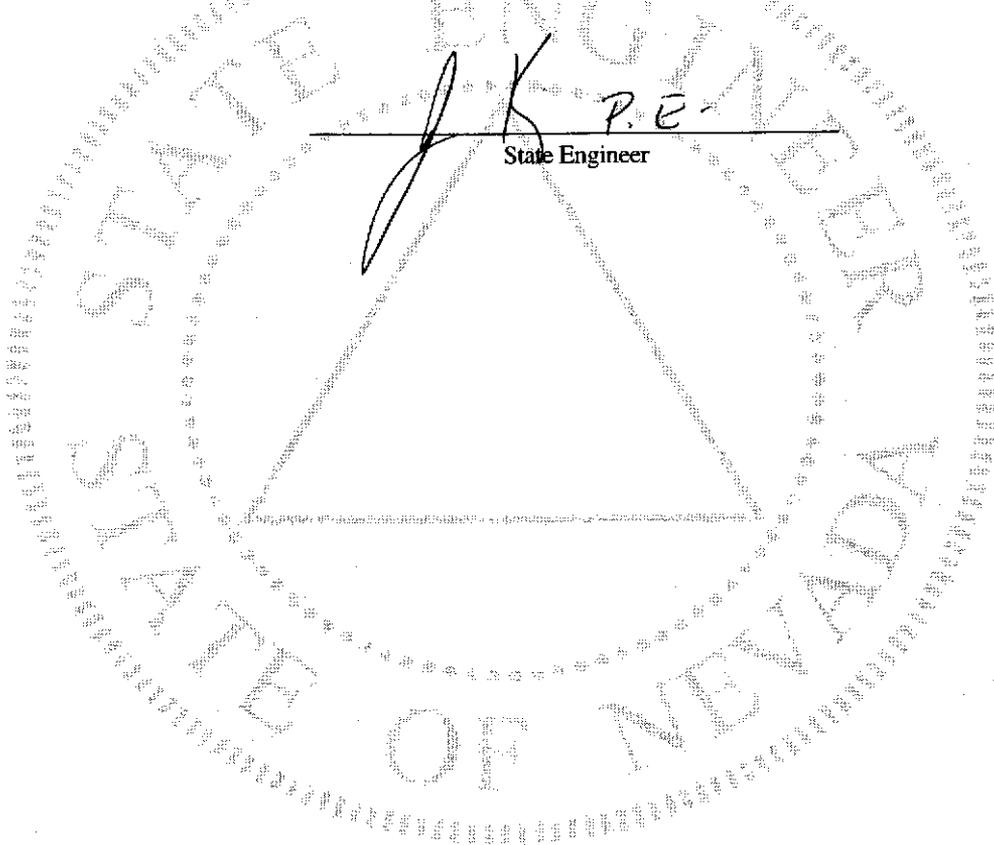

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26<sup>th</sup> day of February, 2015

 P. E.  
\_\_\_\_\_  
State Engineer

AMENDED

Application No. **84123**

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY
Date of filing in State Engineer's Office JUL 16 2014
Returned to applicant for correction JUL 20 2014
Corrected application filed SEP 02 2014 Map filed OCT 10 2014

The applicant Valley Electric Association, Inc.
800 E. Hwy 372 of Pahrump
Street Address or PO Box City or Town
NV, 89041 State and ZIP Code
hereby make(s) application for permission to change the

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Application No. 49885, Certificate No. 13475.

STATE ENGINEER'S OFFICE
2014 SEP -2 PM 2:32
RECEIVED

- 1. The source of water is an underground source in Nye County, NV
2. The amount of water to be changed 0.003846 cfs, 1.0 acre-foot
3. The water to be used for commercial
4. The water heretofore used for irrigation and domestic

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
Within the West Half (W 1/2) of the Northwest Quarter (NW 1/4) of the Northwest Quarter (NW 1/4) of the Northwest Quarter (NW 1/4) of Section 29, Township 16 South, Range 49 East, M.D.M., from which the Northwest corner of Section 29 bears, North 19°43'48" West, a distance of 254.58 feet.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
the Southeast Quarter (SE 1/4) of the Northwest Quarter (NW 1/4) of Section 12, Township 17 South, Range 48 East, M.D. M., from which the Northwest corner of Section 12 bears, North 54°31'52" W, a distance of 2350'.

SAD

SAD

SAD

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

The West Half (W 1/2) of the Northwest Quarter (NW 1/4) of the Northwest Quarter (NW 1/4) of the Northwest Quarter (NW 1/4) of Section 29, Township 16 South, Range 49 East, M.D.M.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

13 acres in the SE 1/4 NW 1/4 of Section 12, Township 17 South, Range 48 East, M.D.B.&M. The area being removed from irrigation is 0.2 acres, from the southerly line of the existing 13 acres currently being irrigated, and lying in the SE 1/4 NW 1/4 of Section 12, Township 17 South, Range 48 East, M.D.B.&M and graphically depicted on the map submitted with this application.

9. Proposed use will be from January 1st to December 31st of each year.  
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Rehab existing well (pull/set pump footage, deepen well, gravel pack and concrete well seal)

12. Estimated cost of works \$4,000 - \$5,000

13. Estimated time required to construct works 3 months  
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 1 year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

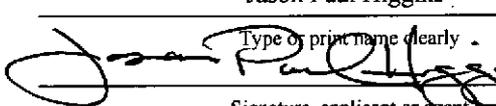

The existing well, (Log No. 52323) was drilled and completed in January 1963 as a domestic well, by Valley Electric Association, Inc.'s predecessor, Amargosa Valley Co-op. At this time, the area foreman lived on the property in a trailer. Since this time, no employees live on the property and the well is used by two lineman, during business hours for normal activities such as a bathroom, hand washing, truck washing and occasionally used for job site water supply (500 gal/day). It is anticipated that less than one acre foot per year will be needed.

16. Miscellaneous remarks:

The distance from the existing Point of Diversion to Devils Hole is approximately 13.2 miles. This distance to the proposed Point of Diversion is approximately 13.5 miles, therefore, in compliance with Order 1197 (November 4, 2008).
