

**THE STATE OF NEVADA****PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: DONNA K. CLARK AND SMITH LIVING TRUST
DATED JUNE 26, 2012

Source: UNDERGROUND

Basin: MASON VALLEY

Manner of Use: IRRIGATION

Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST

Priority Date: 03/25/1975

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 68398, is issued subject to the terms and conditions imposed in said Permit 68398 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

Permit 84169, for underground water, is issued for outside landscaping and incidental use for the described place of use. Surface water rights from storage or newland water provided from the Walker River Irrigation District are also associated with the described place of use. The issuance of Permit 84169 does not create a permanent supplemental relationship to the surface water rights.

This permit is issued for irrigation purposes within the described place of use, further identified as Lyon County Assessor's Parcel Number 014-301-02. This permit cannot be sold separately or otherwise transferred or conveyed from this place of use. Any attempts to change the place of use of this permit will be denied.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(Continued on Page 2)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0071 cubic feet per second or 1.70 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 13 2018

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

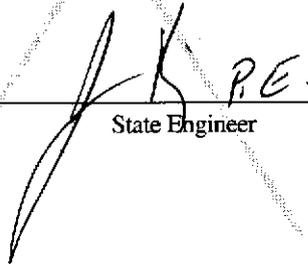

November 13 2020

Map in support of proof of beneficial use shall be filed on or before:
