

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: GARY PRIMM
Source: UNDERGROUND
Basin: LAS VEGAS VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 02/05/1949

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 12811, Certificate 4320, is issued subject to the terms and conditions imposed in said Permit 12811, Certificate 4320 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 84186 and 84187, being fully supplemental, shall not exceed 2.0 acre-feet annually.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for irrigation and domestic purposes within the described place of use, further identified by the Clark County Assessor as APNS 177-09-303-006 and 177-09-303-009.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0038 cubic feet per second or 1.381 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 27 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 27 2017

Map in support of proof of beneficial use shall be filed on or before:

May 27 2017

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 27th day of May, 2015

State Engineer

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

0.276 acres within a portion of the NE1/4 SW1/4 of Section 9, T. 22 S., R. 61 E., M.D.M., and more specifically described as Clark County Assessor Parcel Nos. 177-09-303-006 and 177-09-303-009.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

A portion of the SW1/4 NW1/4 of Section 3, T. 21 S., R. 62 E., M.D.M. 0.276 acres removed from irrigation. See area designated as "H" on the supporting application map.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

An existing 8-inch well, submersible pump, pipes, pressure tanks, underground distribution system and appurtenances.

12. Estimated cost of works \$25,000

13. Estimated time required to construct works well log unknown

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use three (3) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water under this application will be used to irrigate turf and landscaping within Clark County Assessor Parcel Nos. 177-09-303-006 and 177-09-303-009.
