

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: GOLDEN SIERRA INVESTMENTS, LLC
Source: UNDERGROUND
Basin: MASON VALLEY
Manner of Use: COMMERCIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 04/24/1974

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 28290, Certificate 8679, is issued subject to the terms and conditions imposed in said Permit 28290, Certificate 8679 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is approved for the entire 20.0 acre-feet annually as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, 15.50 acre-feet, can be diverted annually. Additional diversion up to the total 20.0 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 15.50 acre-feet to be exceeded.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 20 acre-feet annually is abrogated from the base right. However, pursuant to NRS 533.3703, only 15.50 acre-feet (the net consumptive use amount) at 0.2325 cubic feet per second can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 21 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

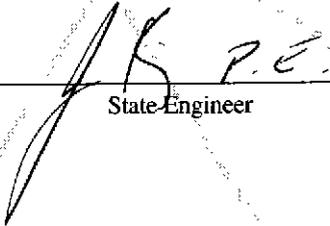

April 21 2019

Map in support of proof of beneficial use shall be filed on or before:

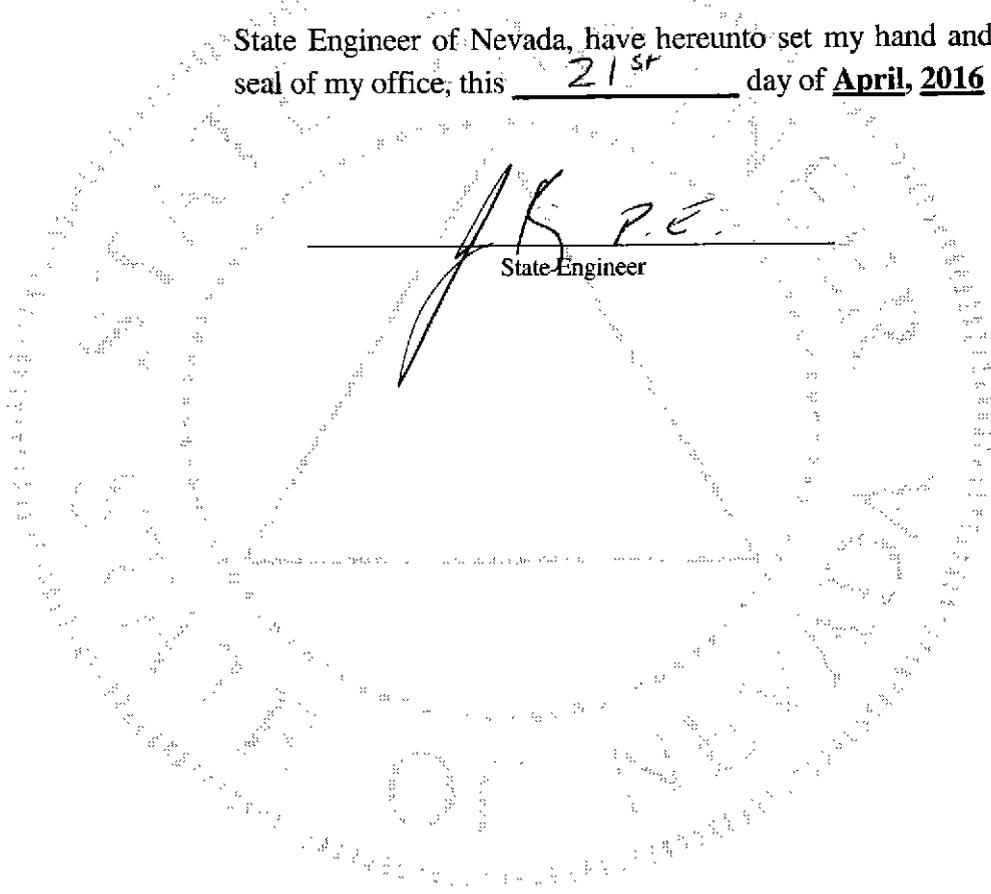

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 21st day of April, 2016

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

STATE ENGINEERS OFFICE

1. The source of water is Underground
Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 0.2325c.f.s., not to exceed 20.0 AFA
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Commercial
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Irrigation and Domestic
If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
Within the SW 1/4 NW 1/4 Section 4, T. 12N., R. 25E., M.D.M., or at a point from which the W 1/4 Corner of said Section 4 bears South 87° 52' 52" West, a distance of 1,159.06 feet.
Refer to supporting map on file under Application 81659.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
NW 1/4 NE 1/4 Section 8, T. 13N., R. 26E., M.D.M., or at a point from which the N 1/4 Corner of said Section 8 bears North 18° 59' West, a distance of 1,360 feet.
Refer to supporting cultural map on file under Permit 28290.

9-108
24

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Within portions of the SW¼NW¼, the NW¼SW¼ and the SW¼SW¼ Section 4, T. 12N., R. 25E., M.D.M
Refer to supporting map on file under Application 81659

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

21.5 acres within the NW¼NE¼ Section 8, T. 13N., R. 26E., M.D.M.
5.0 acres will be removed from irrigation under this application.
Refer to stripping map under Application 84244.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, pump, motor, and piping.

12. Estimated cost of works Existing

13. Estimated time required to construct works Existing 14" cased well - see Well Log 11090
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

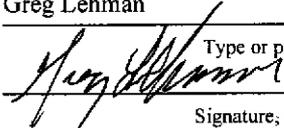

This Application will bring additional water to an existing gravel and batch plant.

16. Miscellaneous remarks:

A Report of Conveyance has been filed to convey the ownership of this water to Applicant.
