

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: **ROBERT FULSTONE**
Source: **UNDERGROUND**
Basin: **MESQUITE VALLEY (SANDY VALLEY)**
Manner of Use: **COMMERCIAL**
Period of Use: **JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date: **08/25/2014**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for commercial purposes within the described place of use, further identified by the Clark County Assessor as APN 219-06-101-005. Upon cessation of pumping for commercially zoned purposes at this place of use, the water under this permit shall return to the groundwater source and no application to change will be allowed.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0014 cubic feet per second or 1.0 acre-foot annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

December 23 2015

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

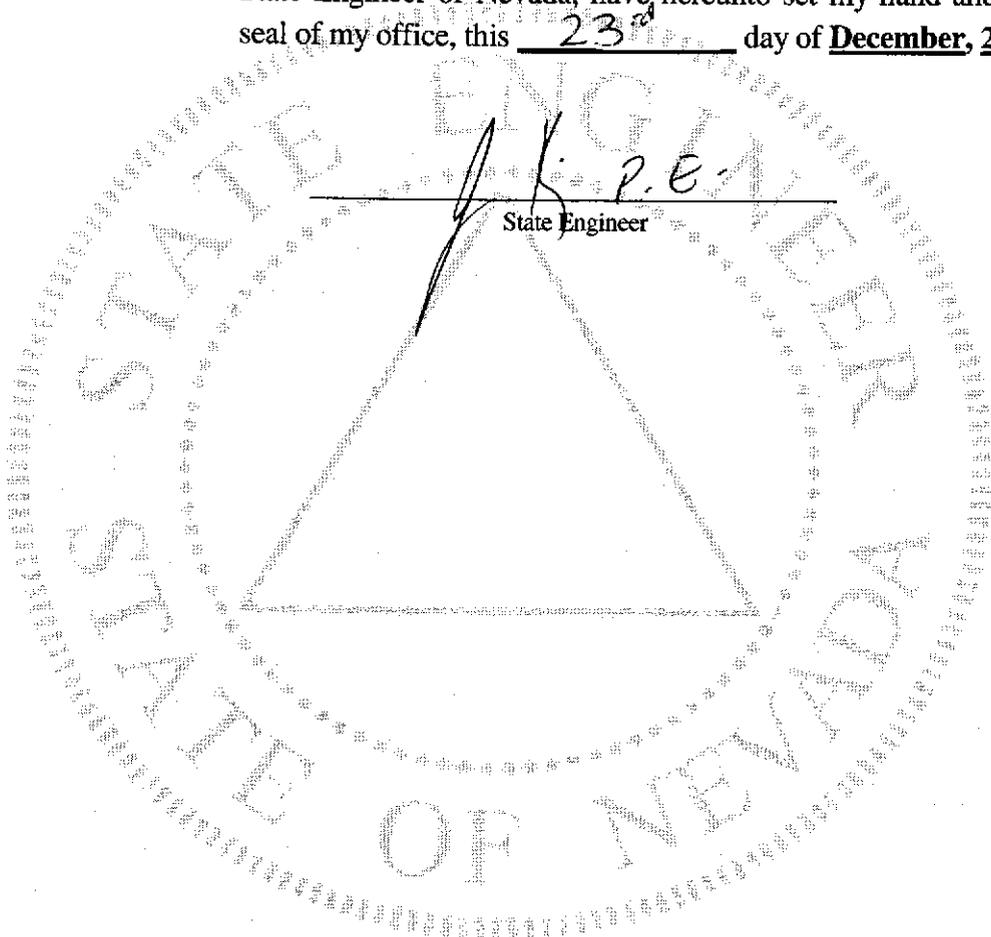

December 23 2017

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23rd day of December, 2014
