Since supplemental groundwater is to be used to irrigate portions of proposed pivot, this change application is to move surface water to the pivot as well, so that supplemental groundwater remains supplemental. Severe droughts have limited surface water supply, so it is anticipated that only supplemental groundwater will be available for irrigation use of pivot. Please see "Attachment A".

16. Miscellaneous remarks:

Permit 25678/Cert. 9294 (Surface Water) shares a common place of use with Permit 25679/Cert. 9295 (Groundwater) and Permit 25680/Cert. 9296 (Groundwater). A portion of Permit 25678 is to be stripped under this temporary app. with the understanding that Permit 25680 will not be used on lands that are temporarily stripped from Permit 25679 or 25678.
