

**TEMPORARY
THE STATE OF NEVADA**

PERMIT TO APPROPRIATE WATER

Name of Permittee: NEIL MCQUEARY AND KRISTIN A. MCQUEARY
Source: UNDERGROUND (TEMP. STOCK WELL)
Basin: RUBY VALLEY
Manner of Use: STOCKWATERING
Period of Use: ONE YEAR FROM DATE OF ISSUANCE.
Priority Date: 10/08/2014

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permit 39104, Certificate 12543; Permit 39105, Certificate 12300; Permit 52982, Certificate 13341 and Permits 82619, 84421T and 84422T shall not exceed 14.56 acre-feet annually, sufficient to water 650 head of cattle.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0203 cubic feet per second or 14.56 acre-feet annually, sufficient to water 650 head of cattle.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 4th day of **November, 2014**

State Engineer

TEMPORARY
