

## THE STATE OF NEVADA

### PERMIT TO APPROPRIATE WATER

**Name of Permittee:** LIND RANCHES, LC  
**Source:** UNDERGROUND  
**Basin:** RUBY VALLEY  
**Manner of Use:** IRRIGATION  
**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 11/03/2014

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

This permit is issued supplemental to surface water rights from Thompson Creek under Proof of Appropriation V04698. Surface water must be used prior to using water under this underground right.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.5 cubic feet per second or 300.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 27 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

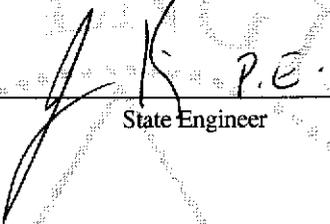

May 27 2018

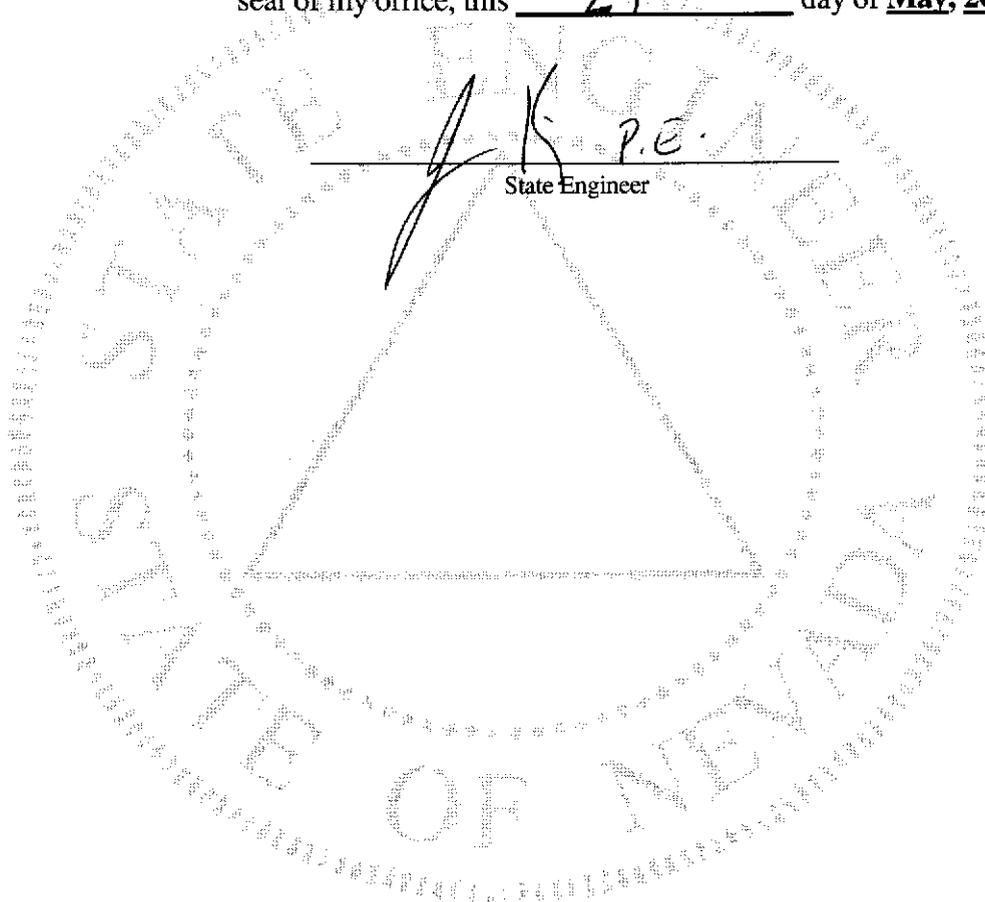

Map in support of proof of beneficial use shall be filed on or before:

May 27 2018

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 27<sup>th</sup> day of May, 2015

  
\_\_\_\_\_  
State Engineer

**APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office NOV 03 2014

Returned to applicant for correction \_\_\_\_\_

Corrected application filed \_\_\_\_\_ Map filed NOV 03 2014

The applicant Lind Ranches, LC

HC 60 Box 610 of Ruby Valley

Street Address Or P.O. Box City or Town

Nevada, 89833 hereby make(s) application for permission to appropriate

State and Zip code No.

the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association give names of members.)

December 26, 1996 in Utah

RECEIVED  
 2014 NOV -3 PM 3:08  
 STATE ENGINEERS OFFICE

1. The source of water is Underground  
Name of stream, lake, underground, spring or other sources
2. The amount of water applied for is 1.50 cfs second feet.  
One second foot equals 448.83 gallons per minute.
  - (a) If stored in reservoir give number of acre-feet \_\_\_\_\_
3. The water to be used for Irrigation  
Irrigation, power, mining, commercial, domestic or other use. Must limit to one major use.
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated 75.00 acres
  - (b) Stockwater, state number and kind of animals \_\_\_\_\_
  - (c) Other use (describe fully in No. 12) \_\_\_\_\_
  - (d) Power:
    - (1) Horsepower developed \_\_\_\_\_
    - (2) Point of return of water to stream \_\_\_\_\_

10-176  
21*

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SW1/4 SE1/4 of Section 14, T.31 N., R.59 E., M.D.B. & M., at a point from which the  
Southwest corner of said Section 14 bears S 68° 33' 54" W, 3293.49 feet.

6. Place of use (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Portions of the S1/2 S1/2 of Section 14 and all of the N1/2 of Section 23, all in  
T.31 N., R.59 E., M.D.B. & M.

7. Use will begin about January 1 and end about December 31 of each year.  
Month and Day Month and Day

8. Description of proposed works (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.)

Drilled well, pump, motor, pipelines and sprinkler system

9. Estimated cost of works: ± \$10,000

10. Estimated time required to construct works: 3 years  
If well completed, describe works

11. Estimated time required to complete the application of water to beneficial use 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):  
(Failure to provide a detailed description may cause a delay in processing.)

Drilled well, pipelines and sprinkler system to irrigate 75.00 acres within the proposed  
place of use.

13. Miscellaneous remarks:

The waters under this application are to be supplemental to the waters from Thompson Creek  
claimed under Proof of Appropriation V-04698. Due to the drought conditions the past two years,  
the waters from Thompson Creek have not been sufficient in quantity to irrigate this area. We are  
filing this application for supplemental underground waters due to the fact that without an  
alternate water source for the crops raised on the lands being applied for, the applicant has  
indicated it will be necessary for him to sell a large number of cattle due to lack of feed.
