

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: **IGNATIUS TRUST**
Source: **UNDERGROUND**
Basin: **LAS VEGAS VALLEY**
Manner of Use: **QUASI-MUNICIPAL**
Period of Use: **JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date: **10/01/1947**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 12031, Certificate 3539, is issued subject to the terms and conditions imposed in said Permit 12031, Certificate 3539, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0083 cubic feet per second or 3.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 16 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

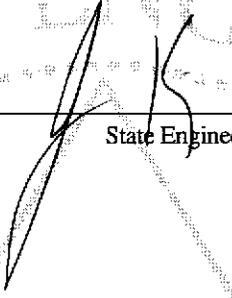

September 16 2018

Map in support of proof of beneficial use shall be filed on or before:

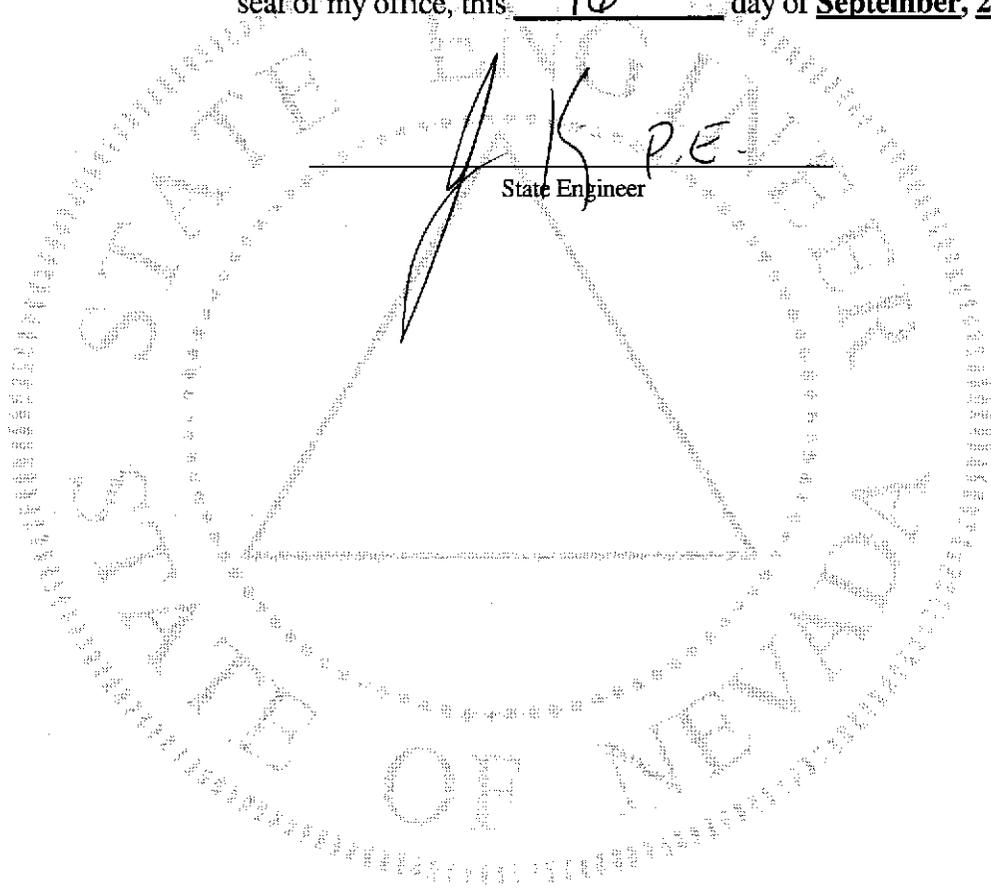

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 16th day of September, 2015

State Engineer

C1

7. Proposed place of use 1.01 acres within a portion of the NW¼ SE¼ of Section 32, Township 20 South,
Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.
Range 61 East, M.D.M. further identified as Clark County Assessor Parcel Number 139-32-702-028.

8. Existing place of use 0.49 acres within a portion of the NW¼ SE¼ of Section 32, Township 20 South,
Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation
Range 61 East, M.D.M., see Area A on accompanying water right map.
Further identified as a portion of Clark County Assessor Parcel Numbers 139-32-702-001 and 139-32-702-002.

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works) 8 inch well drilled to a depth of 620 feet, submersible pump and
State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and
tank to an underground distribution system, see well log 469.
flumes or drilled well, pump and motor, etc.

12. Estimated cost of works \$25,000.00

13. Estimated time required to construct works 8 inch well drilled to a depth of 620 feet, submersible pump and
If well completed, describe well.
tank to an underground distribution system, see well log 469.

14. Estimated time required to complete the application of water to beneficial use 3 years

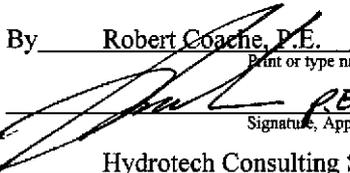

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
Failure to provide a detailed description may cause a delay in processing.
Water from the well will be used for a single family home, future guest quarters, turf irrigation and general landscaping purposes.
