

**THE STATE OF NEVADA****PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: JOHN F. ROYCE
Source: UNDERGROUND
Basin: LOVELOCK VALLEY-OREANA SUBAREA
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 01/06/1969

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 46006, Certificate 12988, is issued subject to the terms and conditions imposed in said Permit 46006, Certificate 12988 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The issuance of this permit fully abrogates 40 acre-feet annually associated with 10 acres under Permit 46006, Certificate 12988, however only the net consumptive use amount of 35 acre-feet can be diverted annually until such time that it can be shown that the additional diversion will not cause the consumptive use of 40 acre-feet to be exceeded.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

A total of 40 acre-feet annually is abrogated from the base right. However, pursuant to NRS 533.3703 only 35 acre-feet (the net consumptive use amount) at 0.204 cubic feet per second can be diverted annually. Additional duty up to the total may be granted if it can be shown that this additional duty will not cause the consumptive use amount to be exceeded.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 30 2018

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

November 30 2021

Map in support of proof of beneficial use shall be filed on or before:
