

TEMPORARY

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: FLT TRUST
Source: UNDERGROUND
Basin: WINNEMUCCA SEGMENT
Manner of Use: IRRIGATION
Period of Use: AS DECREED
Priority Date: 06/05/1961

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 19888, Certificate 6430, is issued subject to the terms and conditions imposed in said Permit 19888, Certificate 6430 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Temporary Permits 85058T through 85065T, 85078T and 85155T shall be limited to 6,040.41 acre-feet per season strictly from surface water sources, 3,010.38 acre-feet per season from supplemental underground sources, and 67.24 acre-feet per season from non-supplemental underground sources for a total combined duty from all sources not to exceed 6,107.65 acre-feet per season.

The total combined duty from underground sources shall not exceed 3,077.62 acre-feet per season.

Temporary Permits 85058T through 85065T, 85078T and 85155T shall be limited to 1,754.1 acres strictly from surface water sources, plus 1,003.46 acres from supplemental underground and surface water sources, plus 22.6 acres from non-supplemental underground sources, for a total of 2,780.16 acres irrigated from all sources within the common place of use described in the applications.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire at the end of the irrigation season as decreed or October 31, 2015, whichever is sooner, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(Continued on Page 2)

This temporary permit, for underground water, is partially supplemental to lands having decreed surface water. This underground water is to be used to the extent that this surface water is not available. The permit holder is responsible for insuring delivery of the surface water to those lands within the place of use. Any time that this decreed land is in priority, the underground water under this permit shall not be diverted to this land. The total diversion of water used for irrigation purposes from all sources shall not exceed the duty of water for this place of use as set forth in the Humboldt River Decree.

Any replacement well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.72 cubic feet per second or 550.0 acre-feet per season, but not to exceed 3.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

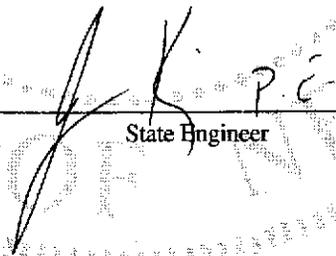

N/A

Map in support of proof of beneficial use shall be filed on or before:
