

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: GRANITE CONSTRUCTION COMPANY
Source: UNDERGROUND (EAST WELL)
Basin: DAYTON VALLEY
Manner of Use: INDUSTRIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 05/14/2015

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, for diversion rate only, is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

The total amount of water that may be diverted from this well (East Well) under Permits 79087, 80074, 80075, 80076 and 85169 shall not exceed 210.52 acre-feet annually.

The total combined duty of water for the gravel pit operations under Permits 69039, Certificate 19043; Permits 79080, 79081, 79082, 79083, 79084, 79087, 80073, 80074, 80075, 80076 and 85169 shall not exceed 256.70 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

This permit is issued for diversion rate only. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.088 cubic feet per second or 15.99 acre-feet annually.**

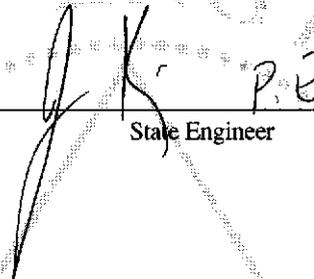

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **Filed Under 80074 on January 25, 2013**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **November 16 2020**

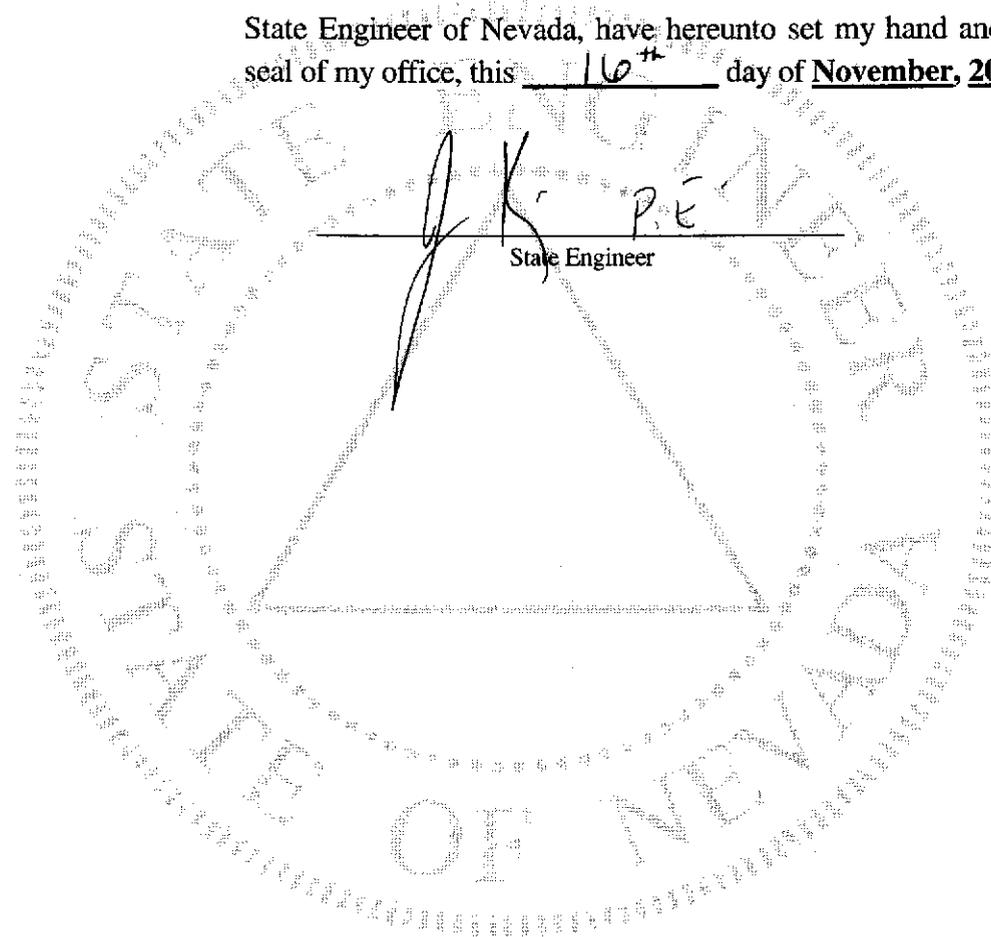

Map in support of proof of beneficial use shall be filed on or before: **N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 16th day of **November, 2015**

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>MAY 14 2015</u>
Returned to applicant for correction	_____
Corrected Application filed	Map filed <u>Jan 6 2010 under 79080</u>

The applicant Granite Construction Company
 Post Office Box 2087 of Sparks
Street Address or P.O. Box City or Town

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

NE1/4 SW1/4 Section 24, T. 16N., R. 21E., MDM., from which the S quarter corner of said Section 24 bears S. 18 degrees 10 minutes 26 seconds E., a distance of 2,116.30 feet (East Well). Refer to map filed in support of Permit No. 79080.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

portion of the E1/2 E1/2 and SW1/4 SE1/4 Section 23; all of Section 24; all of Section 25; N1/2 Section 36; all in T. 16N., R. 21E., MDM; W1/2 Section 19; W1/2 Section 30; NW1/4 Section 31; all in T. 16N., R. 22E., MDM. Refer to map filed in support of Permit No. 79080.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing well drilled and equipped with pump, motor, and totalizing meter.

9. Estimated cost of works: None - Existing

10. Estimated time required to construct works: None - Existing

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

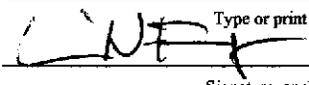

This application is being filed for Diversion Rate Only, no additional volume of water is being requested. The total combined duty of this Application and Permit No. and 80073 will not exceed 15.99 acre-feet annually. Water under this Application will be utilized for sand and gravel operations, various screening, settling, dust suppression operations, and industrial purposes.

13. Miscellaneous remarks:

The total combined duty of this Application and Permit Nos. 67883 (17686), 69039 (19043), 79080, 79081, 79082, 79083, 79084, 79087, 80073, 80074, 80075 and 80076 shall not not exceed 265.70 acre-feet annually.
