Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Applicants propose to use an existing collection box and pipeline to a holding tank and pipe the water to a proposed single family dwelling.

9. Estimated cost of works: \$2,000.00±

10. Estimated time required to construct works: 2 years  
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 5 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Applicant proposes to use the spring to provide water to a proposed single family dwelling. Annual consumptive use will not exceed 2.0 acre feet.

13. Miscellaneous remarks:

Proof 010492 was filed claiming a vested right on this water source, the spring is located on private ground and the claimant does not have a grazing lease. The spring was developed in the 1990's by the previous land owner, prior to that time there were no improvements, only an area of grass and trees, the water trough was added in later years by the claimant. The applicant feels that a claim of vested rights for stock watering does not exist.
