APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion, place and manner of use of a portion of the waters of Hot Springs as heretofore granted under Claim of Vested Right V01276, is issued subject to the terms and conditions imposed in said Claim V01276 and with the understanding that no other rights on the source will be affected by the change proposed herein. A measuring device must be installed and measurements of water use kept. This temporary permit is issued subject to any determination of the waters of Hot Springs that may be made under adjudication proceedings under NRS 533.090 through 533.320.

During the period of use of this temporary permit, 10.0 acres under Claim of Vested Right V01276 must be removed from irrigation.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 15, 2015, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.092 cubic feet per second or 40.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:
