#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place of use of a portion of the waters of the Humboldt River as heretofore appropriated under Proof DHR00122 as appears in the Matter of the Determination of the Relative Rights of the Waters of the Humboldt River Stream System and Tributaries, Case No. 2804, in the District Court of the Sixth Judicial District of the State of Nevada, in and for the County of Humboldt, is issued subject to the terms, conditions and irrigation period imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A substantial headgate and measuring device must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 85079 and 85245 shall not exceed 5,923.0 acre-feet per season.

Permits 85079 and 85245 shall be limited to 1,676.74 acres within the common place of use described in the applications.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

In an effort to improve the irrigation efficiency of the ranch, a modernized pivot irrigation system was installed over areas that were previously flood irrigated. The surface water canal system has not been removed as a result of the installation of the modernized pivot system. This application proposes to change the place of use of the existing surface water rights in conjunction with the corresponding supplemental groundwater rights as a result of the new irrigation practice. A total of 892.63 acre-feet for 312.28 acres, as further calculated below, will be moved to the proposed place of use.

16. Miscellaneous remarks:

877.89 acre-feet for 292.63 acres Harvest Crop

14.74 acre-feet for 19.65 acres Diversified Pasture
