Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, submersible pump, motor, totalizing meter, pressure tank and distribution system within the place of use.

12. Estimated cost of works \$30,000

13. Estimated time required to construct works 3 years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 10 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary); (Failure to provide a detailed description may cause a delay in processing.)

This water will serve (2) new single-family dwellings and an accessory dwelling unit within the place of use.

16. Miscellaneous remarks:

A contractor's estimate to run an 8" water line as required by Douglas County to serve the parcels under the proposed place of use together with the required hook-up fees for both residences are estimated to be over \$48,000, which significantly exceeds the estimated cost for drilling and equipping a well. Please see attached hook-up estimate sheets.
