

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: MCDERMITT COMMUNITY, INC.
Source: UNDERGROUND
Basin: QUINN RIVER VALLEY-MC DERMITT SUBAREA
Manner of Use: MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 06/26/2015

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, for diversion rate only, is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. The State retains the right to regulate the use of the water granted herein at any and all times. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

The total combined duty of water under Permit 23253, Certificate 7866; Permit 28363, Certificate 10986; Permit 43728, Certificate 13959; Permit 48073, Certificate 13075 and Permit 85266 shall not exceed 171.19 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

This permit is issued for diversion rate only. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 1.0 cubic feet per second or 171.19 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 16 2016

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

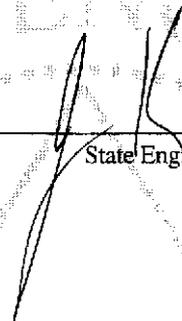

November 16 2020

Map in support of proof of beneficial use shall be filed on or before:

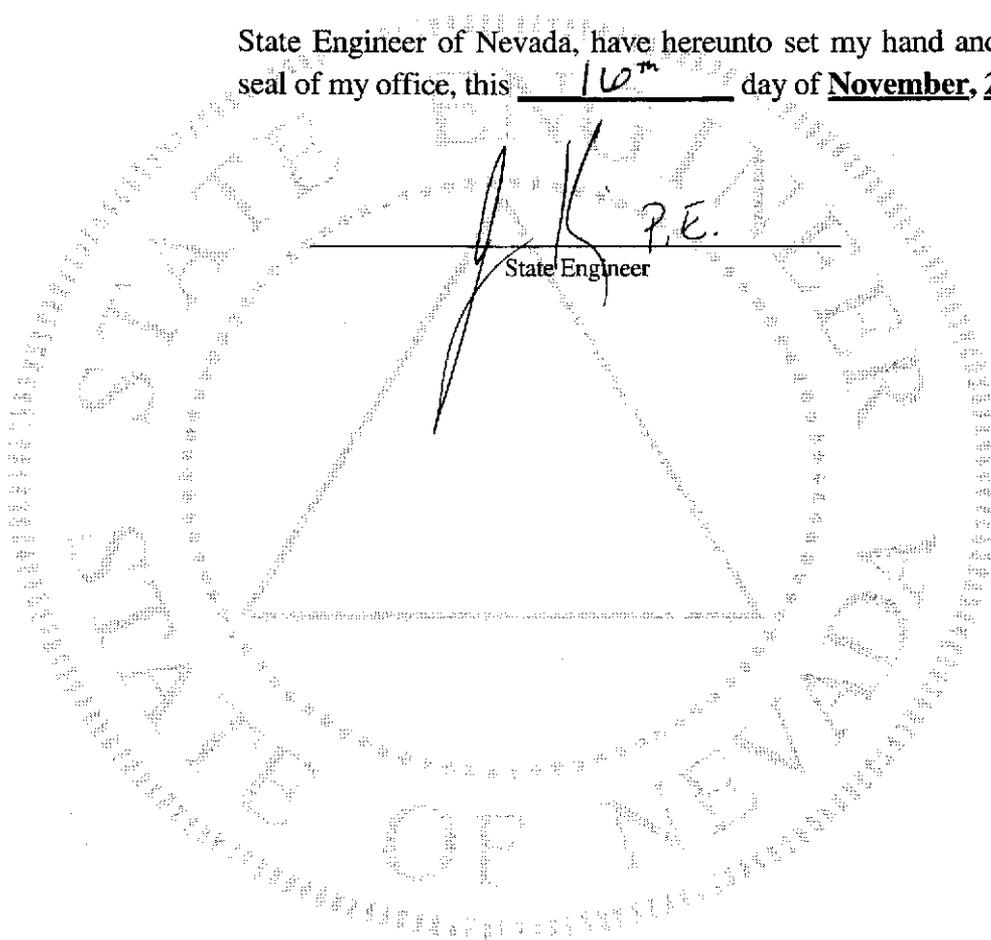

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 16th day of **November, 2015**

State Engineer

85266

Application No. _____

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office _____	JUN 26 2015
Returned to applicant for correction _____	
Corrected Application filed _____	Map filed JUN 26 2015

The applicant McDermitt Community, Inc.

Post Office Box 36 of McDermitt
Street Address or P.O. Box City or Town

Nevada, 89421 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

State of Nevada - January 18, 2012

1. The source of water is an underground source
Name of the stream, lake, underground, spring or other sources.

2. The amount of water applied for is 1.0 cubic feet per second (diversion rate only)
One second foot equals 448.83 gallons per minute.

(a) If stored in a reservoir give the number of acre-feet _____

3. The water is to be used for Municipal Purposes
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kind of animals _____

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

QRV - MS
2-336
HV

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within Lot 2 of Section 32, T.48N., R.38E., M.D.M., or at a point from which the Southeast corner of said Section 32 bears South 31°50'48" East, a distance of 1,386.33 feet. Refer to map filed in support of this application.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

All of Section 4, East 1/2 of Section 5, T.47N., R.38E. M.D.B.&M.; all of Sections 32 and 33, T.48N., R.38E., M.D.B. &M., State of Nevada; SW1/4 of Section 17; the South 1/2 of Section 18; all of Section 19 and Lots 3 and 4 of Section 20, all within T.41S., R.43E., W.M., State of Oregon. Refer to map filed in support of Permit No. 43728.

7. Use will begin about January 1st and end about December 31st of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A drilled and cased well, equipped with a motor, pump, totalizing meter and pipeline to distribution system.

9. Estimated cost of works: \$250,000

10. Estimated time required to construct works: Two (2) Years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application is for Diversion Rate Only; No additional volume of water is being requested. This application will provide the town of McDermitt an additional production well to meet delivery requirements within the proposed place of use. The total combined duty of water under this application and Permit No. 23253, Cert. 7866; Permit No. 28363, Cert. 10986; Permit No. 43728, Cert. 13959; Permit No. 48073, Cert. 13075 shall not exceed 171.19 acre-feet annually.

13. Miscellaneous remarks:

Refer to Temporary Application No. 84053-T for more information.
