

**THE STATE OF NEVADA****PERMIT TO APPROPRIATE WATER**

Name of Permittee: SILVER CREEK RANCH, INC.
Source: UNDERGROUND
Basin: UPPER REESE RIVER VALLEY
Manner of Use: IRRIGATION
Period of Use: MARCH 15TH THROUGH OCTOBER 31ST
Priority Date: 07/27/2015

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit is also issued subject to the provision that the place of use of the water herein granted is limited to and supplemental to lands having existing water rights under Claim of Vested Right V09361 for the waters of the Reese River.

The amount of water granted herein is subject to any future adjudication of the Upper Reese River and tributaries.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, not to exceed 3.0 cubic feet per second or 750.0 acre-feet annually, and is limited to 3.0 acre-feet per acre from all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 30 2020

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

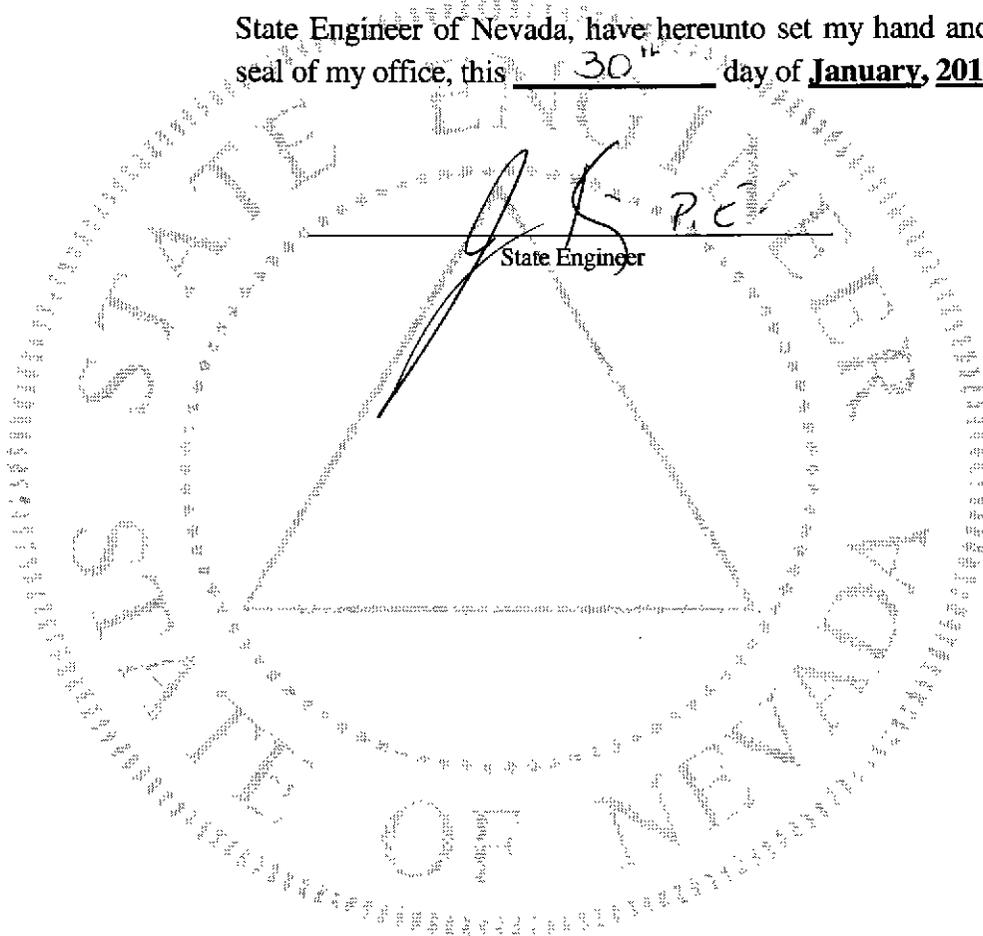

January 30 2022

Map in support of proof of beneficial use shall be filed on or before:

January 30 2022

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of January, 2017

[Handwritten Signature]

State Engineer

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office JUL 27 2015
