Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, pump, motor, and irrigation distribution system.

12. Estimated cost of works in excess of \$50,000

13. Estimated time required to construct works 1 year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This Application is being filed to move the proposed point of diversion under the base permit to a more suitable well location. The place of use for the irrigated acreage remains the same. The well will be drilled to augment the diminished yield from the supplemental well under Permit 78895. Together these two wells will deliver the necessary quantity of water to irrigate the acreage within the place of use.

16. Miscellaneous remarks:

This water is fully supplemental to Permit 78895, and partially supplemental to decreed water under the Pete Hanson Creek Decree. A permanent application will be filed upon confirmation of satisfactory production by the new well. Please send copies of all correspondence to Robert Brock, Barrick Gold NA, 460 W 50 N, Ste 500, SLC, UT 84101.
