

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: CITY OF SPARKS, CITY OF RENO AND WASHOE COUNTY
Source: STREAM (TRUCKEE RIVER)
Basin: TRACY SEGMENT
Manner of Use: WILDLIFE
Period of Use: AS DECREED
Priority Date: AS DECREED

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of the waters of the Truckee River as heretofore granted under Permit 73632, which changed the point of diversion, place and manner of use of a portion of Claim 630, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

The issuance of this permit fully abrogates 8.64 acre-feet per season associated with 2.16 acres under Permit 73632, being formerly a portion of Claim 630, and described as the existing place of use under this permit.

The issuance of this permit is for the consumptive use portion only, being 2.50 acre-feet per acre of the base right. The remaining portion of the base right will remain in the river for use by other decreed right holders.

This permit is subject to the continuing jurisdiction of the Federal Water Master and the State Engineer.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

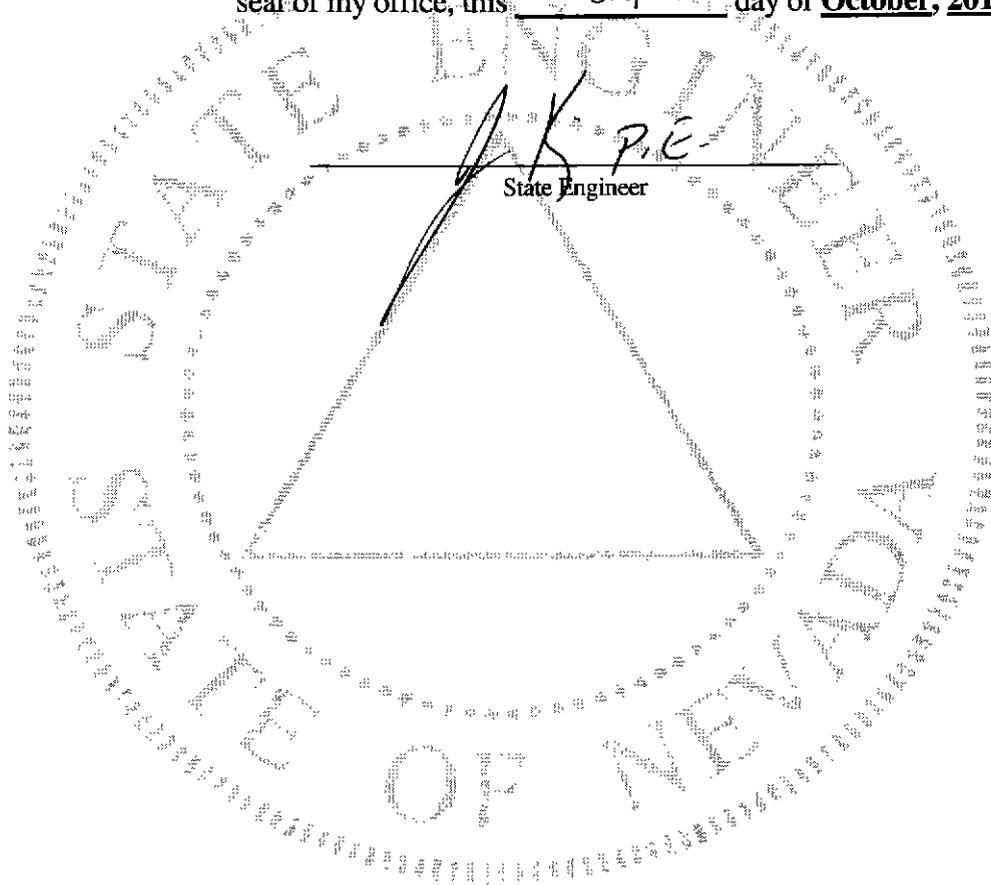

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.081 cubic feet per second or 5.4 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: Filed Under 82371 on April 25, 2014
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: October 24 2019
Map in support of proof of beneficial use shall be filed on or before: N/A
