

AMENDED PERMIT

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: TRI GENERAL IMPROVEMENT DISTRICT
Source: STREAM (TRUCKEE RIVER)
Basin: TRACY SEGMENT
Manner of Use: MUNICIPAL
Period of Use: AS DECREED
Priority Date: AS DECREED

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion of the waters of the Truckee River as heretofore granted under Permit 83298, which changed the point of diversion and place of use of a portion of Permit 65582, which changed the point of diversion, place and manner of use of Permit 25474, Certificate 8132, which changed the place of use of a portion of Claim 302, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit is subject to the continuing jurisdiction and regulation by the Federal Water Master and State Engineer.

Pursuant to State Engineer Ruling 6190, and addressed again in Ruling 6279, a construction plan for the induction well must be submitted and approved by the State Engineer prior to construction of this well.

A monthly report shall be submitted to both the Federal Water Master's Office and the Division of Water Resources within 10 days from the end of each month which shall include the amount of water pumped from the induction well and the amount of water used.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is approved for the net consumptive use amount of the base right. Additional diversion up to the total 38 acre-feet may be granted if it can be shown that the additional diversion will not cause the consumptive use of 23.75 acre-feet to be exceeded.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

This permit is approved for the entire 38 acre-feet as requested. However, pursuant to NRS 533.3703, initially only the net consumptive use amount of the base right, or 23.75 acre-feet, can be diverted. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.148 cubic feet per second or 23.75 acre-feet as decreed.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 21, 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

April 21, 2021

N/A

Map in support of proof of beneficial use shall be filed on or before:

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 4th day of January, 2017
