This permit, to change the point of diversion, place and manner of use of the waters of the Truckee River as heretofore granted under Permit 66565, which changed the point of diversion and place of use of Permit 23641, Certificate 7322, which changed the point of diversion of Permit 21006, Certificate 5810, which changed the point of diversion, place and manner of use of Claim 608, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.
