#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion and place of use of a portion of the waters of the Muddy River as heretofore granted under Permit 73482, which changed the point of diversion and place of use of a portion of Permit 21847, Certificate 8324, which changed the point of diversion and place of use of Permit 31, Certificate 58A of the Muddy River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under Permits 85529T and 85530T shall not exceed 300 acre-feet annually.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.35 cubic feet per second or 300 acre-feet annually, as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

This application is designed to facilitate a short-term Surface Water Sublease of a total of 300 afy from the Moapa Band of Paiutes to Hidden Valley Ranch, LLC. The water covered by this temporary application would be diverted through an existing structure to irrigate land held by Hidden Valley Ranch LLC that was previously irrigated under Claim #1626 of the Muddy River Decree. A portion of the water rights covered by Claim #1626 was sold and is no longer attached to Hidden Valley Ranch's land. The additional water under this temporary application would be used by Hidden Valley Ranch LLC to irrigate a portion of its land that was fallowed as a result of the water sale.

16. Miscellaneous remarks:

This application was filed for additional Winter season water. An application has also been filed on Permit 73483, for the purpose of obtaining additional Summer season water. The total combined not to exceed consumptive use volume on the two aforementioned applications is 300 acre-feet per year.
