

# THE STATE OF NEVADA

## PERMIT TO APPROPRIATE WATER

Name of Permittee: **ROCKVIEW DAIRIES, INC.**  
Source: **UNDERGROUND**  
Basin: **AMARGOSA DESERT**  
Manner of Use: **IRRIGATION**  
Period of Use: **JANUARY 1ST THROUGH DECEMBER 31ST**  
Priority Date: **10/28/2015**

\*\*\*\*\*

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

The total combined duty of water under Permit 43524, Certificate 11303, and Permits 82739, 82740, 82741, 82743, 82747, 82748, 82749, 84282, 84285, 84294, 84295, 84298, 84299, 84303, 84306, 84818, 84819 and 85607 shall not exceed 3,139.83 acre-feet annually.

The total combined duty of Permits 82749 and 85607 shall not exceed 790 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

This permit is issued for diversion rate only. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.45 cubic feet per second or 790.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 30 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

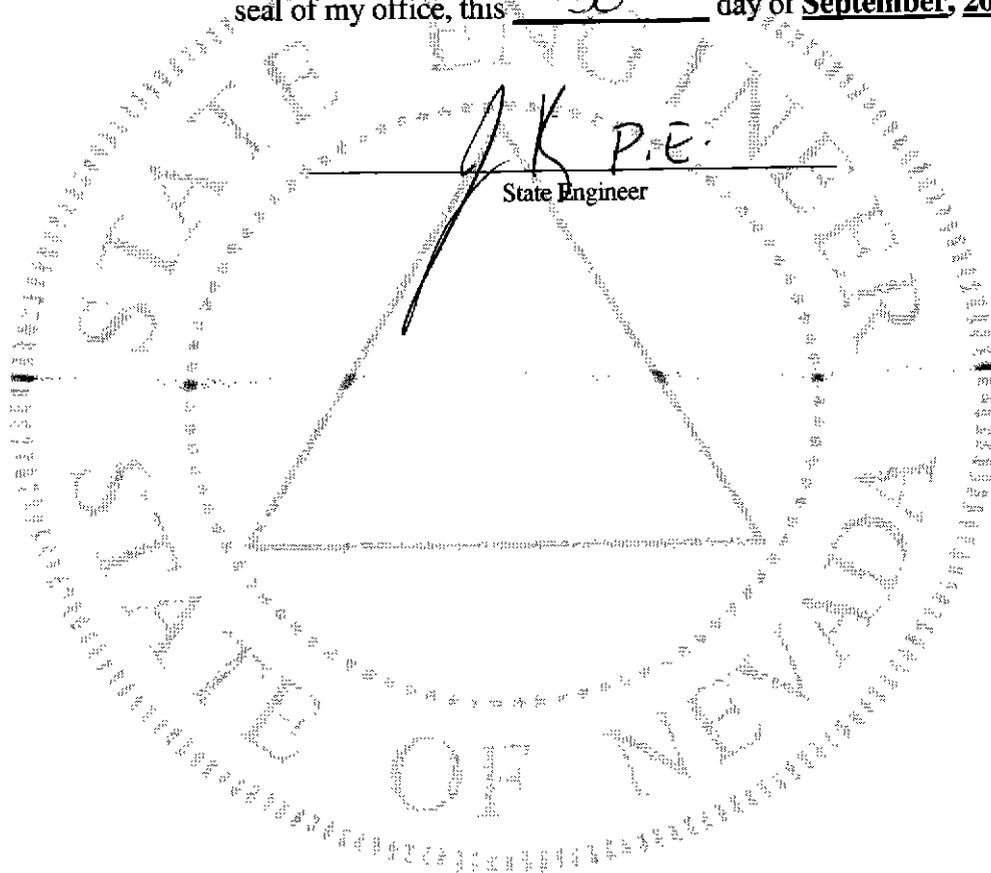

September 30 2019

Map in support of proof of beneficial use shall be filed on or before:

September 30 2019

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30<sup>th</sup> day of September, 2016

**APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC  
WATERS OF THE STATE OF NEVADA**

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office _____	<b>OCT 28 2015</b>
Returned to applicant for correction _____	Aug 14 2015 Under 85386E
Corrected Application filed _____	Map filed _____

The applicant Rockview Dairies, Inc.  
PO Box 70 of Amargosa Valley  
Street Address or P.O. Box City or Town  
NV 89020 hereby make(s) application for permission to appropriate the  
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)  
State of California on March 28, 1968

1. The source of water is underground  
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 790 afa, 2.45 cfs  
One second foot equals 448.83 gallons per minute.  
 (a) If stored in a reservoir give the number of acre-feet \_\_\_\_\_
3. The water is to be used for irrigation  
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated \_\_\_\_\_
  - (b) Stockwater, state number and kind of animals \_\_\_\_\_
  - (c) Other use (describe fully in No. 12) \_\_\_\_\_
  - (d) Power:
    - (1) Horsepower developed \_\_\_\_\_
    - (2) Point of return of water to stream \_\_\_\_\_

14-230  
Nye

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

The proposed POD is in the SE¼, SW¼, Sec. 9, T17S, R49E, M.D.M. or at a point from which the SW¼ corner of said section 9 bears north 86°39'30" east at a distance of 2363.18 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

E1/2 of Section 4, all of Section 9, all of Section 10, NW1/4, N1/2 SW1/4, SW1/4 SW1/4, NW1/4 SE1/4 of Section 15, T17S, R49E, M.D.M.

7. Use will begin about January 1 and end about December 31 of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

500 foot deep well with 10" ID casing to be drilled and tied into existing pipeline system, pump and motor TBD.

9. Estimated cost of works: \$220,000

10. Estimated time required to construct works: one year  
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: four years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Rockview seeks to gain flexibility in the use of irrigation permits and is filing diversion-only applications to be able to pump permitted diversions at alternate PODs within the dairy. To mitigate increasing nitrogen-N levels in groundwater, the Nevada Division of Environmental Protection (NDEP) has required a recovery well as a condition in the discharge permit issued 7/1/2014 (Item #2 of Section A.2.1 of DP# NV0023027). This applications seeks to meet the requirement.

13. Miscellaneous remarks:

No additional groundwater will be diverted under this application. Rather, this diversion-only application seeks to add a second point of diversion for permit 82749. The map filed with application 85386E shows the location of the proposed well and the place of use.
